Warrant For Special Town Meeting

Wednesday, January 5, 1972

To either of the Constables of the Town of Stoneham in the County of Middlesex,

In the name of the Commonwealth of Massachusetts you are hereby directed to notify and warn the inhabitants of the Town of Stoneham qualified to vote in elections and town affairs to meet in the Town Hall on Wednesday, January 5, 1972, at 8:00 o'clock in the evening to act on the following articles of this warrant:

ARTICLE 1.

To see if the Town will vote to raise and appropriate a sum of money for the purpose of acquiring by purchase, accept as a gift, take by right of eminent domain under Chapter 79 or 80A of the General Laws, or otherwise acquire an easement for drainage purposes on land of Roman Catholic Archbishop of Boston, a Corporation sole located in said Stoneham, Middlesex County, Massachusetts, bounded and described as follows:

Beginning at a point on the northerly sideline of Broadway, said point being 320.17 feet from the point of intersection of the northerly sideline of Broadway and the easterly sideline of MacArthur Road; thence the line runs N 2-21-05 E 242.80 feet to a point in the stonewall at the rear of lot 9 Mayflower Drive, said point being 33.03 feet easterly from the southwest corner of lot 9. Thence the line turns and runs N 22-28-35 E 112.00 feet to a point on the southerly sideline of Mayflower Drive. Thence the line turns and runs along said sideline of Mayflower Drive S 67-31-25 E 15.00 feet to a point. Thence the line turns and runs S 22-28-35 W 112.00 feet to a point in the aforementioned stonewall. Thence the line turns and runs S 2-21-05 W 238.09 feet to a point in the aforementioned northerly sideline of Broadway. Thence the line turns and runs by said northerly sideline N 84-39-55 W 15.02 feet to the point of beginning. All according to "Plan of Drain Easement from Broadway to Mayflower Drive", dated October 15, 1971 by William J. Reid, Jr. registered land surveyer.

Said easement shall be used for drainage purposes by the Grantee hereof, which easement shall include the right to lay, maintain, repair and replace pipes for drainage for the benefit of other property of the Grantee hereof.

ELEMENTARY SCHOOL BUILDING COMMITTEE

ARTICLE 2.

To see if the town will vote to appropriate a sum of money for constructing, originally equipping and furnishing a new elementary school and determine whether such appropriation shall be raised by transfer from available funds by borrowing, or by any combination of those methods; or take any other action in relation to the project.

ELEMENTARY SCHOOL BUILDING COMMITTEE

ARTICLE 3.

To see if the town will vote to appropriate a sum of money for constructing, originally equipping and furnishing four additional classrooms in the new elementary school and determine whether such appropriation shall be raised by transfer from available funds by borrowing, or by any combination of those methods; or take any other action in relation to the project.

STONEHAM SCHOOL COMMITTEE

ARTICLE 4.

To see if the Town will direct the Moderator to appoint a Committee of seven (7), one member to be a member of the School Committee and one member to be a member of the Finance and Advisory Board, to investigate the implementation in Stoneham of possible alternatives to new school construction to satisfy the educational needs of the Stoneham Schools, including but not limited to, the various extended school year plans now being used elsewhere and that the Committee report its findings at the next annual Town Meeting or do anything in relation thereto.

DONALD A. LEONARD

And you are directed to have five hundred (500) copies of the warrant printed and so serve the same by posting duly attested copies in at least ten (10) public places in the Town seven (7) days at least before the time for holding said meeting and by causing a duly attested copy of the said warrant to be published in some newspaper in the Town, the publication to be not less than three (3) days before said meeting.

The remaining copies you are to have at the place and time of meeting as aforesaid.

Hereof fail not and make due return of this warrant with your doings thereon to the Town Clerk at the time and place aforesaid.

Given unto our hands this twenty-first day of December in the year of Our Lord one thousand nine hundred and seventy-one.

BOARD OF SELECTMEN

Pursuant to the within warrant I have notified and warned the inhabitants of the Town of Stoneham qualified to vote in elections and town affairs of the within meeting by posting attested copies of the said warrant in at least ten (10) public places in the Town on December 27, 1971, and by causing to be published duly attested copies of the said warrant in the Stoneham Independent on December

Robert E. Moreira
Constable of Stoneham

Special Town Meeting
January 5, 1972

Agreeable to the warrant signed by the Selectmen on December 21, 1971, the inhabitants of the Town of Stoneham qualified to vote in elections and town affairs met in Town Hall on Wednesday, January 5, 1972 at 8:00 o'clock in the evening.

Tellers were appointed to check the names of voters entering the hall and the check lists showed that four hundred eighty-four (484) voters attended the meeting.

The meeting was called to order by the Moderator and the warrant read.

The Moderator recognized Mr. Frank J. Burns of 57 Westwood Rd., who requested a ruling for a ballot vote on the school issue. The Moderator ruled that a ballot vote was in order.

Mrs. Mildred Schweiger, Chairman of the Finance and Advisory Board, moved that Article 2 of the warrant be considered first. The Moderator moved Article 2 at this time.

Article 2. It was moved and seconded that the Town vote to raise and appropriate the sum of $1,800,000.00 for constructing, originally equipping and furnishing a new sixteen-room elementary school, that said appropriation be raised by transfer of $100,000.00 from the Stabilization Fund and the Town Treasurer, with the approval of the Selectmen, is authorized to

issue $1,700,000.00 bonds or notes of the Town under Chapter 645 of the Acts of 1948 as amended, provided that the total authorized borrowing shall be reduced by any matching stabilization fund payment and that the Elementary School Building Committee is authorized to take all action necessary to carry out this vote.

Question to shut-off debate carried the necessary two-thirds vote. YES, 343; NO, 88.

Motion on Article 2 was voted by secret ballot, and failed to receive the necessary two-thirds vote. Yes, 159; NO, 279.

It was moved and seconded that Article 2 be reconsidered. The Moderator declared that the motion to reconsider was not carried.

Article 1. VOTED that the subject matter of this article be indefinitely postponed.

Article 3. VOTED that the subject matter of this article be indefinitely postponed.

Article 4. It was moved and seconded that the Town direct the Moderator to appoint a Committee of seven (7), one member to be a member of the School Committee and one member to be a member of the Finance and Advisory Board, to investigate the implementation on Stoneham of possible alternatives to future school construction to satisfy the educational needs of the Stoneham Schools, including but not limited to, the various extended school year plans now being used elsewhere and that the Committee report its findings at the 1973 annual Town Meeting.

It was moved and seconded that the motion be amended by striking out the words "and one member to be a member of the Finance and Advisory Board". So voted.

VOTED that the Town direct the Moderator to appoint a Committee of seven (7), one member to be a member of the School Committee, to investigate the implementation on Stoneham of possible alternatives to future school construction to satisfy the educational needs of the Stoneham Schools, including but not limited to, the various extended school year plans now being used elsewhere and that the Committee report its findings at the 1973 annual Town Meeting.

Voted to adjourn sine die.

All the foregoing truly entered.

AUDREY C. RICE, Town Clerk

BOARD OF SELECTMEN

ARTICLE 16.

To see whether the Town will vote to amend the Zoning By-Law by adding to the present limits of the retail business districts as heretofore defined and set forth, so as to include in the retail business districts the following described area:

A certain parcel of land situated in Stoneham in the County of Middlesex and said Commonwealth, bounded and described as follows:

Southerly by the northerly line of West Wyoming Avenue, ninety-seven and 47/100 feet;

Southwesterly by the northeasterly line forming the junction of said West Wyoming Avenue and Lynn Fells Parkway, thirty-five and 24 100 feet;

Westerly by the easterly lin line of said Lynn Fells Parkway, one hundred forty-four and 90/100 feet;

Northerly by lot 1 as shown on plan hereinafter mentioned and by land now or formerly of Walker's Realty Inc., one hundred eighty-three and 51/100 feet; and

Southeasterly by land now or formerly of R. Theodore Bless et al, one hundred eighty-five and 70/100 feet.

Said parcel is shown as lot 2 on said plan, (Plan No. 34101A). All of said boundaries are determined by the Court to be located as shown on a plan, as modified and approved by the Court, filed in the Land Registration Office, a copy of a portion of which is filed in the Registry of Deeds for the South Registry District of Middlesex County in Registration Book 744, Page 29, with Certificate 122779.

The above described land is subject to a building line restriction, approximately shown on said plan, as set forth in a grant made by Mathilda E. Stantial to Charles A. Walker, dated October 6, 1923, duly recorded in Book 4664, Page 130.

The above described land is also subject to a pole line easement, approximately shown as set forth in a Lease and Easement given by Nellie C. Walker et al to The Edison Electric Illuminating Company and the New England Telephone and Telegraph Company, dated October 16, 1935, duly recorded in Book 5989, Page 505.

STONEHAM HISTORICAL SOCIETY

ARTICLE 23

To see if the Town will vote to raise and appropriate a sum of money for the purpose of remodeling and or altering the building presently used by the Stoneham Police Department so as to enable said building to be used in connection with the various town departments, boards, or committees upon the vacating of the premises by the Police Department, and that said appropriation be expended under the authority of the Board of Selectmen. Determine in what manner the appropriation shall be raised, by transfer

from available funds, by taxation, by borrowing, or any combination thereof, or do anything in relation thereto.

BOARD OF SELECTMEN

ARTICLE 24.

To see if the Town will vote to amend the Zoning By-Laws by deleting Section 18 of Article 1 and inserting in lieu thereof the following Section 18. Site Plan Approval:

1. In all classes of zoning districts, no buildings, or any building accessory thereto, intended to be used for residential purposes by three families or more shall be constructed or externally enlarged, or established in a building not theretofore used for such occupancy, and no commercial buildings shall be constructed or externally enlarged, and no commercial use shall be expanded in ground area or established in an existing building not theretofore used for commercial purposes except in conformity with a detailed topographical site plan bearing an endorsement of approval by the Board of Selectmen. Said Site Plan shall show, among other things, all existing and proposed buildings, structures, parking spaces, loading areas, driveway openings, driveways, service areas, and other open uses, all facilities for sewerage, refuse and other waste disposal and for surface water drainage, and all landscape features (such as walks, fences, walls, planting areas and greenbelts) on the lot.

2. Definitions applicable to Site Plans:

For the purposes of this Section 18, the following uses shall be considered as commercial purposes and all buildings designed, arranged or constructed for, or occupied by, one or more of such uses shall be considered as commercial buildings:

Any of the uses allowed by the zoning by-law as a matter of right or permissable on a special permit in a non-residential zone but not allowed or permitted in a residential zone except the following uses allowed in a residential zone:

A. Telephone office.

B. Farm, stock farm, truck garden, nursery or greenhouse upon which items are produced for the purpose of sale, including salesrooms for the sale of such products raised in or upon any of them.

C. Riding stable, riding school, or the boarding or keeping of horses for rental purposes.

3. Procedure for approval:

Any applicant desiring approval of a site plan under this section shall submit said plan with five (5) copies, with application for approval thereof directly to the Board of Selectmen.

In exercising its jurisdiction under this section, the Board shall conform to all applicable requirements of procedure for the approval of sub-division plans under the provisions of Chapter 41 of the General Laws, including, but not limited to, public notice and hearing.

The Board of Selectmen may in any particular case, where such action is in the public interest, and not inconsistent with the intent and purposes of the Site Plan requirements, waive strict compliance with its rules relative to Site Plan Approval.

4. General Conditions for Approval:

In considering a site plan under this section, the Board of Selectmen shall assure, to a degree consistent with a reasonable use of the site for the purposes permitted or permissible by the regulations of the district in which located:

a. Protection of adjoining premises against detrimental or offensive uses on the site.

b. Convenience and safety of vehicular and pedestrian movement within the site, and in relation to adjacent streets, property or improvements.

c. Adequacy of the methods of disposal for sewage, refuse and other wastes resulting from the uses permitted or permissible on the site, and the methods of drainage for surface water.

d. Adequacy of space for the off-street loading and unloading of vehicles, goods, products, materials and equipment incidental to the normal operation of the establishment.

5. Authority of Board:

The Board of Selectmen shall have power to modify or amend its approval of a site plan on application of the owner, lessee, or mortgagee of the premises, or upon its own motion if such power is reserved by the Board in its original approval. All of the provisions of this Section applicable to approval shall, where apt, be applicable to such modification or amendment.

Adjourned Annual Town Meeting
Monday, March 13, 1972

Agreeable to the warrant signed by the Selectmen on February 1, 1972, and in accordance with the vote of adjournment at the annual Town Election held on March 6, 1972, the inhabitants of the Town of Stoneham qualified to vote in elections and town affairs met in the Junior High School on Monday, March 13, 1972, at 7:30 o'clock in the evening.

Tellers were appointed to check the names of voters entering the Junior High School and the check lists showed that six hundred and forty-five (645) attended the meeting.

The meeting was called to order and the warrant read.

Mrs. Mildred Schweiger, Chairman of the Finance and Advisory Board, moved that Article 73 be acted upon before Article 12. The Moderator so moved Article 73 before Article 12.

Voted to accept progress report of the Unicorn Golf Course Commission, as follows:

"On November 15, 1971, the Town voted to acquire the Unicorn Golf Course contingent on Federal Funding. The next day the Unicorn Commission made formal application to the Land and Water Conservation, Bureau of Outdoor Recreation, requesting Federal participation for this land acquisition in the amount of $252,500.00. Included in the application were the land use plans indicating Stage 1 - the construction of a nine (9) hole golf course to be opened in the Spring of 1972.

The request for Federal Funds has been approved, an acceptance agreement has been signed by the Selectmen, and on February 22, 1972, the Department of Natural Resources granted permission for the Town to proceed with the acquisition.

The Estate of Moulton Cox has agreed upon a selling price of $533,500.00. The Unicorn Committee received a letter of March 9th stating that the Estate of Moulton Cox is ready to transfer the title to the Unicorn Golf Course property to the Town of Stoneham with the deed of the property to the Town duly signed by the executor of the estate and two heirs. The Town Treasurer is in the process of floating the bonds. We expect to take title to this land sometime this month."

Mr. Robert Murphy of the Stoneham Ice Skating Rink Building Committee, moved that Articles 17, 18, 40, 41 and 42 be held in abeyance until bonds are issued for the Unicorn Skating Rink. The Moderator so ruled that the aforementioned Articles be held in abeyance.

It was moved and seconded to limit debate of articles to five minutes. So voted.

Voted to accept progress report of the Police Station Building Committee, as follows:

"The Police Station Building Committee was appointed by the Town Moderator as the result of a favorable vote on Article No. 38 at the 1971 Annual Town Meeting.

The Committee of seven (7) members consisting of the Chief of Police, Superintendent of Public Works, a member of the Board of Selectmen, a member of the Finance Board, and three (3) other members, held their first meeting on April 7, 1971, and at this meeting, the Committee was organized as follows:

Chairman: Chief Bernard C. Vacon
Secretary: Lt. Dominic Lucci
Members: Mrs. Ann Prevett, Mrs. June MacTaggart, Mrs. Schweiger, Mr. William Reid, and Mr. Dominic Pasquariello.

Selection of sites and architects were discussed.

Received applications from 41 architectural firms, the final choice of the Committee was the firm of Hughes and McCarthy of Natick, Mass. on April 30, 1971. On May 4, 1971, the Committee met with Mr. Hughes and Mr. McCarthy and entered into an agreement to design the building.

A sub-committee of three (3) members was appointed to look into the feasibility of obtaining Civil Defense Aid. After reviewing the report of the sub-committee, it was decided not to request aid, since the type of construction required under Civil Defense Code would cost more than would be re-imbursed by the Government.

Funding and Projected Costs:

Total funding for construction and furnishing is $320,000.00 of which $200,000.00 is a gift from Mrs. Angie Crockett, as a contribution toward the construction of the New Police Station, in memory of her late husband, James B. Crockett. Twenty Thousand Dollars ($20,000.00) was appropriated at the 1971 Annual Town Meeting under Article No. 39, for the purpose of engaging an architect to prepare final drawings, plans, and specifications. One Hundred Thousand Dollars ($100,000.00) was appropriated by the town at the Special Town Meeting of June 28, 1971:

Bidding on Construction of the Building

On August 24, 1971, the four (4) lowest general bids were opened and read in the presence of all bidders.
It was voted unanimously by the Committee to award the contract to PAONE CONSTRUCTION CO. of Winchester, the lowest bidder, for the bid price of $270,000.00 including all alternates. We subsequently met with Mr. Anthony Paone, Sr. and agreed to contract arrangements. In the presence of Town Counsel and Mr. John Hughes, Architect, the Committee signed the contract with Paone Construction for $270,000.00.

The new Police Station is progressing satisfactorily and is about one half completed. The anticipated completion date is early July, 1972.

Due to the failure of the Committee to insert the wording "to equip and furnish" in the original Article No. 38, we are not allowed to use the funds under that Article, even though there are sufficient funds available. Therefore, we are requesting the sum of Fourteen Thousand Dollars ($14,000.00) to be appropriated under Article No. 47 at this meeting, keeping in mind that the building committee anticipates the return of this $14,000.00 balance, to be returned to the town treasury after the completion of the Station.

VOTED that articles and motions be read once.

VOTED to shut-off debate at 11 P.M.

Article 2. VOTED that the Selectmen be authorized to appoint all other Town Officers whose appointments are not provided for by law.

Article 24. VOTED that the town amend the Zoning By-laws by deleting Section 18 of Article 1 and inserting in lieu thereof the following Section 18, Site Plan Approval:

1. In all classes of zoning districts, no buildings, or any building accessory thereto, intended to be used for residential purposes by three families or more shall be constructed or externally enlarged, or established in a building not theretofore used for such occupancy, and no commercial buildings shall be constructed or externally enlarged, and no commercial use shall be expanded in ground area or established in an existing building not theretofore used for commercial purposes except in conformity with a detailed topographical site plan bearing an endorsement of approval by the Board of Selectmen. Said site plan shall show, among other things, all existing and proposed buildings, structures, parking spaces, loading areas, driveway openings, driveways, service areas, and other open uses, all facilities for sewerage, refuse and other waste disposal and for surface water drainage, and all landscape features (such as walks, fences, walls, planting areas and greenbelts) on the lot.

2. Definitions applicable to site plans:

For the purposes of this Section 18, the following uses shall be considered as commercial purposes and all buildings designed, arranged or constructed for, or occupied by, one or more of such uses shall be considered as commercial buildings:

Any of the uses allowed by the Zoning By-law as a matter of right or permissible on a special permit in a non-residential zone but not allowed or permitted in a residential zone except the following uses allowed in a residential zone:

A. Telephone office.

B. Farm, stock farm, truck garden, nursery or greenhouse upon which items are produced for the purpose of sale, including salesrooms for the sale of such products raised in or upon any of them.

3. Procedure for approval:

Any applicant desiring approval of a site plan under this section shall submit said plan with five (5) copies, with application for approval thereof to the Building Inspector who shall refer the plans and application to the Board of Selectmen.

The Building Inspector shall act as the liaison for the Board of Selectmen and present said plans to all of the various departments and boards of the town who are expected to pass on any of the aspects of the plan and shall also appear at the formal site plan hearing and any continuances thereof.

In exercising its jurisdiction under this section, the Board shall conform to all applicable requirements of procedure for the approval of sub-division plans under the provisions of Chapter 41 of the General Laws including, but not limited to, public notice and hearing.

The Board of Selectmen may in any particular case where such action is in the public interest, and not inconsistent with the intent and purposes of the site plan requirements, waive strict compliance with its rules relative to site plan approval.

4. General conditions for approval:

In considering a site plan under this section, the Board of Selectmen shall assure, to a degree consistent with a reasonable use of the site for the purposes permitted or permissible by the regulations of the district in which located:

A. Protection of adjoining premises against detrimental or offensive uses on the site.

B. Convenience and safety of vehicular and pedestrian movement within the site, and in relation to adjacent streets, property or improvements.

C. Adequacy of the methods of disposal for sewage, refuse and other wastes resulting from the uses permitted or permissible on the site, and the methods of drainage for surface water.

D. Adequacy of space for the off-street loading and unloading of vehicles, goods, products, materials and equipment incidental to the normal operation of the establishment.

5. Authority of Board:

The Board of Selectmen shall have power to modify or amend its approval of a site plan on application of the owner, lessee, or mortgagee of the premises, or upon its own motion if such power is reserved by the Board in its original approval. All of the provisions of this Section applicable to approval shall, where apt, be applicable to such modification or amendment.

Report Of The Town Council

For the year 1972 the Town Counsel has performed those duties assigned to him under the provisions of Article VI, Section 6 of the Town By-Laws, the pertinent section of the General Laws, and miscellaneous tasks, legal and-or administrative, as requested by the Board of Selectmen and other departments, boards and committees. In so doing, the case list is as follows:

U. S. Circuit Court of Appeals:	One
Massachusetts Supreme Court:	One
Massachusetts Superior Court:	Eleven
District Courts:	Four
Massachusetts Appellate Tax Board:	Twelve
Department of Community Affairs:	One

During the past year, one U. S. District Court case, four Superior Court cases, two District Court cases, and six Appellate Tax Board cases were disposed of. One Superior Court case was remanded to the Fourth District Court for Eastern Middlesex where it was tried and a verdict in favor of the Town was rendered.

The case presently before the United States Circuit Court of Appeals is the result of an appeal from a decision favorable to the interest of the Town rendered by the United States District Court. That case was commenced under the provisions of Title 42, Section 1983 of the United States Code (commonly referred to as the Civil Rights Act) wherein the plaintiff alleged that at the time of his arrest in 1960 and subsequent conviction in 1961 he was deprived of certain Constitutional Rights. The jury trial together with hearings on preliminary motions lasted eight days. At the conclusion of the presentation of the plaintiff's case, the judge directed a verdict in favor of

the arresting officer, from which the plaintiff appealed. The entire proceedings have been quite complex and time-consuming, involving practically memorizing the transcript of the records from previous trials, and oral depositions, and attendance at pre-trial conferences, and motion sessions. Under the provisions of Chapter 41, Section 100 of the General Laws, the Town is required to indemnify the officer for any damages awarded as a result of the litigation.

The case before the Supreme Court was a cause which was commenced by a petition for declaratory judgment pursuant to General Laws, Chapter 231A filed by the Town of Stoneham and four other communities in order to determine the correctness of the formula utilized by the Northeast Metropolitan Regional Vocational School District Committee in apportioning capital and operating costs among the municipalities comprising the School District. The Superior Court found that the wrong formula was used which resulted in Stoneham paying an amount in excess of what should have been paid. The respondent municipalities appealed the decision to the Supreme Court where it was argued on December 5, 1972, and from which a decision should be forthcoming in the near future.

The penal provision of the Stoneham Sign By-Law was invoked for the first time and the trial resulted in a finding of not guilty for the defendant. While it is the opinion of the Town Counsel that the penal section resolves very little, actually in effect denying the Town the opportunity to avail itself of Equity Jurisdiction of the type applied to zoning violations, nevertheless because of the wording of the enabling act (Chapter 93, Section 29 and 33) it is mandatory that the penal section remain in the Sign By-Law.

Another first for the Town was an appeal taken under the provisions of Chapter 774 of the Acts of 1969 (usually referred to as the "Snob Zoning Law") from the denial of the Board of Appeal for an application to construct "Low or Moderate Income Housing" subsidized by the State or Federal Government. A motion to dismiss was allowed without prejudice to submit another plan which complies with Chapter 40B of the General Laws.

Pursuant to the provisions of the vote on Article 31 of the warrant for the Annual Town Meeting for 1972, all materials relevant to the codification of our by-laws have been forwarded to Michie City Publication Company. These materials included the Town Reports from approximately 1890 to the present. Receipt of the galley proofs is anticipated in the near future and completion of the work shortly thereafter barring any extensive change in the government of the Town.

No attempt has been made to itemize all of the activities of this office for the past year, nor for that matter all of the litigation, pending or otherwise. An undertaking of that nature would be too voluminous and time-consuming

for the amount of benefits derived therefrom. As will be noted in the first paragraph of this report, the tasks are referred to as "legal and-or administrative". There is no question but that some of the activities could be construed as not coming within the realm of the office of Town Counsel, but I believe that the practice of accepting them has become so customary that until an alternate is provided they must as of necessity be handled by this office.

A gratifying aspect of the position of Town Counsel is the cooperation which is received from the personnel of the Town, for which at this time I would like to say "many thanks".

TOWN COUNSEL

Annual Report Of The Conservation Commission

January 5, 1973

To the Honorable Board of Selectmen

Ladies and Gentlemen:

Re: 1972 Annual Report of the Conservation Commission

The Conservation Commission began the year with the following officers:

Bennett N. Blaisdell, Chairman
Norman A. Norton, Vice Chairman

The Conservation Commission filed an application with the Ford Foundation for a grant to be used in conjunction with the Crockett Estate, which grant has been approved.

The Commission also voted to submit an article in the Town Warrant to request $1,000. to be used by this Commission. This article was approved.

We received the resignation of Mrs. Viola Saltmarsh, with regret, and wish to thank her for her contribution to the work of the Commission.

During the year we cleaned several areas in the town. Daniel Towse and a group worked on cleaning Dikes Pond, Norman Norton got busy with the Boy Scouts on the Brookbridge Road project, and with the help of several hundred interested individuals helped clean up the M. D. C. area.

At one of our meetings Steven Mullins displayed and explained a detailed depth map of Dikes Pond. All commented on how well it was prepared and presented.

We held our first Public Hearing under the Natural Resources Department on the Adamian property on Montvale Avenue, and the Zaltman property on Franklin Street. The interested departments and individuals were notified of our decision, in each case, as required by law.

Because of the change in the law under which the Conservation Commission operates, with the resulting new authority, we felt it necessary to engage a Recording Secretary.

We also voted to establish regular meeting nights, and, as a result the Conservation Commission will meet at 8 P.M. on the first and third Wednesdays of each month. We welcome all interested parties.

New Officers for 1973 are as follows:
Norman Norton, Chairman
Louise Dole, Vice Chairman
Jean Clark, Secretary
Barbara Broderick, Recording Secretary

We wish to thank the officers and employees of the town for their assistance and cooperation, and the townspeople for their support.

Respectfully,
Bennett N. Blaisdell, Chairman

Annual Report Of The Stoneham Housing Authority

Honorable Board of Selectmen
Stoneham, Massachusetts

In compliance with the requirements of the General Laws of the Commonwealth of Massachusetts, the Stoneham Housing Authority submits its report for the year ending December 31, 1972.

The Authority was created by the unanimous vote of the Town Meeting on March 24, 1948. As prescribed by the General Laws, its functions as a body politic and a corporate entity entirely separate from the Town of Stoneham and the Commonwealth of Massachusetts.

The Authority consists of five members- four are elected for terms of 5 years at the Stoneham Town Election and one member is appointed by the Commissioner of Community Affairs also for a term of 5 years.

Donald Lawson was appointed by the Commonwealth for a term of 5 years. At the annual meeting of the Authority held on April 11, 1972 the following officers were chosen:

Chairman-William L. Curran
Treasurer-Lawrence F. Hurley
Member-John M. Rolli
Vice Chairman-Donald A. Lawson
Ass't Treasurer-George C. Smith
Attorney John E. Finnegan-Executive and Counsel.

The Authority has built and now owns and administers five separate projects. Two of these are for veterans and their families and three are for persons over 65 years of age.

There are 72 units of Veterans Housing. They consist of 42 two bedroom units and 30 three bedroom apartments. The Calthea Street project was completed on June 1, 1950 and the Washington Avenue project on September 1, 1951 and have been fully occupied since that time. Incomes and family composition are reviewed annually. The rental charge reflects the cost of operation and administration of the projects and the amount needed to pay off the original construction costs. The projects are inspected annually by the members of the Authority, both inside and outside, to insure the continued upkeep of the buildings and grounds.

The Authority now owns 109 units of Elderly Housing. The first project, consisting of 29 apartments was opened in December 1957. 40 more apartments were added in 1964 and another 40 units were completed in December 1966.

All utilities, except electricity, are included in the rental charge. The lowest charge is $43.00 and the highest $53.00 a month. The elderly tenants have the use of their own Community Building for their schedule of activities. The building which has once been enlarged, provides kitchen facilities and a coin-operated laundry for the convenience of the tenants and it has a large activity room.

As for the Elderly, the original 29 units, which was one of the first projects built in the State, is located on an extension of Washington Avenue and the 80 later units are located on Parker Chase Road, a new street built by the Authority.

The Authority has a permanent maintenance staff for the upkeep of all

the projects with special attention to the comfort and convenience of the elderly tenants. $2,060,000.00 is available for the construction of a new project. The Authority plans and specifications for 100 units drawn up by the architectural firm of Drummey Rosane Anderson.

Construction of the 100 new elderly units will be ready August 1, 1973 by James J. Welch Co. Inc. of Salem, Mass. This will consist of 4 new buildings plus a new and larger Community Building. The new units will be heated electrically and will consist of a brick living room, bedroom, kitchen and bath. The building will have a brick exterior and closely resemble the existing projects both inside and out and will be fully landscaped for the enjoyment of the tenants.

The members of the Authority and the Executive Director wish to thank the tenants and the various departments and officials of the Town for their cooperation and help in 1972 as well as heretofore.

The Authority is expecially grateful to the Department of Public Works for its invaluable help and also to the Stoneham Public Library for providing books and service to the elderly tenants at the Community Building.

Respectfully submitted,

William L. Curran
Chairman

ANNUAL REPORT

OF THE SCHOOL DEPARTMENT

"Education, above all, gives value to life. The more we see on the way, the more we feel, the more we ponder over our journey, the more we ask of education, and the more it can give." (Kenneth E. Eble)

The Annual Report should provide historical information about progress in the schools of Stoneham as well as projected direction of the schools.

Education is our primary concern. Therefore, this report will highlight some new programs developed during 1972, as well as highlighting those important on going programs now being taught in the Stoneham Public Schools.

The professional staff of the School Department includes 240 teachers, 15 educational aides, and 22 administrators, principals, supervisors and directors. The health department has four full-time nurses and a part-time physician. In addition, there are 4 summer school teachers, 7 part-time teachers and 29 evening school teachers.

Office personnel in all buildings includes 19 full-time secretaries, 13 part-time clerical workers and a coordinator of data processing.

The buildings and grounds department has a director, 32 custodians and two maintenance craftsmen. The cafeteria staff consists of a director, 21 part-time workers, and 20 full-time workers.

A sizeable percentage of our instructional staff members are studying in various graduate schools to complete either a master's degree or other advanced graduate study programs. There are 116 staff members who have at least a master's degree.

A good school system must have career teachers who provide stability and leadership. Ten of Stoneham's teachers have twenty-five or more years of service in Stoneham. In addition, 32 instructors have given ten years of service in Stoneham and 62 teachers have taught five or more years in Stoneham. Their experience, plus the experience of those who had been teaching before coming to Stoneham, provides a desirable balance and stability of staff.

SCHOOL COSTS MANAGEMENT

According to Louis Pasteur, "Chance favors only those whose minds are

prepared." Keeping this important objective in mind in these times of extreme financial pressures, the School Committee and the School Administration are greatly concerned about rising costs of education. Many factors have contributed to cost increases: inflation, increased cost of materials and services, and additional legal requirements in the areas of special education and kindergarten classes, among others.

Substantial increases in State aid have helped to moderate the cost level which Stoneham taxpayers must actually raise to pay for local education. Federal support has remained stable and is generally restricted to the area of special projects, such as the elementary counselor and three primary teachers available during the school year and a special summer program paid under Public Law 89-10, Title I; initial occupational education costs; and reimbursements for certain books, materials and equipment.

The School Committee and the School Administration are making every effort to do what is possible under these conditions. The result of this effort has been a credibly high level of educational practices maintained at a reasonable cost. If a comparison of the amounts of local taxes spent for schools is made for communities comparable to Stoneham, one may rapidly observe that expenditures for schools in Stoneham are generally less. Stoneham currently spends forty-eight percent of local taxes for schools. The per pupil costs at the elementary level are considerable below the state average. This is a reflection of limited space facilities for special services rather than a lack of quality teachers.

PROGRAM BUDGETING

In 1970 the Stoneham School Department was granted a sum of money under Public Law 89-10, Title V, in order to organize modern budgeting and accounting procedures. The State Department is in the process of utilizing this form of budgeting, but for the time being has delayed the publication of its guidelines, which are needed for implementation. However, the School Department will continue to refine its present structure to be prepared for the future.

This type of budgeting is a system approach which involves the following elements: planning, programming, budgeting and evaluating. As a management system more than just a system of accounting, PPBS orPPBES is simply a more orderly reclassification of all proposed expenditures into categories that are more meaningful for decision-makers. Expected results are (1) better identification of specific objectives; (2) more precise measurement of educational gains; (3) improved analysis of alternatives; and (4) long-range educational planning.

When this type of budgeting is implemented, the first step will be that of

changing the budgeting structure with the eventual goal of involving the entire staff in stating educational objectives. Hopefully, taxpayers will find educational costs more easily credible and parents will feel more assured that their children are benefiting from sound educational decisions.

MEDIA SERVICES DEPARTMENT

With the creation of a system-wide Media Services Department and the appointment of a full time director of this department, the Stoneham Public Schools has assumed a new direction in providing a better education for the students. The utilization of instructional aides has increased considerably, as has the use of our Resource Center Facilities. By means of small group in-service programs, the teachers have received assistance in the preparation of materials and they have been instructed in the operation of equipment.

The demand for closed circuit television has increased to the point where limitations have been invoked on occasion because of the amount of equipment and personnel to operate it. The student training program has been expanded to include boys and girls in both the junior high and high schools.

Changes in the secondary schools library facilities and policies have given them new life as they become a more integral part of the learning process. Media materials are appearing on the shelves alongside the books, and equipment is available for student use. It is expected that the elementary schools will each have a media resource center by September, 1974. The Central School facility now has two satellite areas which function as individual study areas for student research and enrichment. The cooperation of parent groups in setting up and staffing the facilities is greatly appreciated.

ELEMENTARY EDUCATION

The fifth and sixth grade programs at Central School and Robin Hood School were established with the idea of meeting the individual needs of the students more effectively. Within groups, numerous smaller groups have been subdivided to meet the individual needs of the children in all areas. At the present time, programmed instruction and teaching are being implemented in many areas. Students are able to work at their own rate through teacher-prepared materials. Pupils requiring extra assistance are taught through small group instruction with the help of a paraprofessional aide. These aides review concepts introduced by the teacher; they do not teach the concepts. Student volunteers from the high school and graduate students from local universities have worked successfully with individual students.

This year, Central School has converted two classrooms into resource centers. These centers, along with the library, offer a wide range of options and a variety of selections for instructing the individual. The teacher has to be certain that the variety of selections is available for all students but appropriate for specific students. The teacher must be flexible to adapt instruction to a student's learning needs, and the student has to cooperate in the manner of working independently with the teacher, an aide, or with students.

Based on observation and parental comments, the program seems to develop student self-confidence, responsibility, good work habits, and independence in dealing with academic subjects.

TITLE I

The Title I program, which transferred its primary base of operations from Central School to South School in September, 1972, consists of concentrated supplementary services for eleven first graders; and fourteen second grade pupils, not quite ready for a full second grade program. Two classrooms at South School are used for this special assistance for these and several dozen other children who have been evaluated as needing extra help by a part-time art teacher, a motor coordination volunteer, three primary teachers, two aides, and a home-school counselor .

In April through June, a remedial reading teacher was funded from Title I funds to work in Emerson and South Schools. This funding was extended to cover a full-time remedial teacher for Title I children in Emerson and South Schools.

PROGRAM IMPROVEMENTS

At the grade three level of the North and South Schools, further individualization was carried on. In one room individual help is offered in reading. Instruction in both rooms at each school offers all basic subject areas in small groups using the open-learning-center concepts.

A new health program was used on a pilot program for grades one and two at South School; this was successful and was incorporated for grades one through three in September, 1972.

A new social studies curriculum guide and program was put into effect in September, 1972, using the concepts-of-learning approach.

At both North and South Schools, a school library was organized with the cooperation of volunteer parents. There are over 700 volumes in each library, which are housed in corners of the individual gymnasiums.

A full-time principal was appointed in September, 1972, as administrator

of the Emerson-East School complex. This new position is intended to give more full-time administrative and curriculum direction to these schools.

At Emerson and Colonial Park Schools, the three units of grade four are using teacher strengths in special subject areas to better advantage. One teacher is teaching mathematics to all four groups; another is teaching language arts, etc. All of them are teaching reading at the same period. This allows regrouping for better, more individualized instruction.

PRIMARY AND INTERMEDIATE READINESS PROGRAM

Integration of the readiness pupils into regular classroom subjects has been completely carried out at Colonial Park School. Children leave regular classrooms and meet with resource teachers on a one-to one basis. The work being done with these children is adapted to their individual needs in the subject of reading. This is being done daily as a regularly scheduled program.

The primary readiness teacher works very closely with the teachers in grades one and two. The intermediate readiness teacher works very closely with all the teachers in grades three and four.

SUMMER PROGRAMS

The summer Title I program was provided at Robin Hood School from July 10 through August 11, 1972. The program of studies had a daily schedule designed to meet individual needs. Language growth and comprehension was stressed. Special services for children included tuition-free participation in camping by the Melrose Y.M.C.A., counseling sessions, field trips and personal assessment and achievement.

Those aspects of the summer Title I program held at the Robin Hood School were based on Dr. L. Duggins' **Perceptual Skills in Reading** for primary level children. Four teachers were trained under this same federal grant in a week-long intensive workshop in Westport, Connecticut, before they began to work in the summer program with thirty-three children aged four and a half to seven. A wide variety of activities were included in the program based at Robin Hood School. The home-school counselor and nurse were very active in working with both children and parents. There was also a program for thirty-two children, ages 8-11, which was primarily a recreational one.

Workshops based on the Duggins' material were conducted by the School Department's reading consultant to introduce to other classroom teachers another technique to employ in the teaching of reading. These voluntary workshops will continue in 1973.

During the summer curriculum development program, the Elementary Social Studies syllabus was completed. The new program develops contemporary social studies concepts with historical data to create a more meaningful program for students. Behavioral objectives direct the teacher and students toward a more creative and meaningful experience in social studies.

The regular summer school program for grades 4, 5, and 6 was held at Central School. It provided remedial assistance in reading, language arts, and mathematics.

Throughout the year, some teachers have been interested in working on more individualized programs and have begun flexible grouping patterns based on skill needs.

GUIDANCE

The testing program, administered by the guidance department, has continued as in the past. Grades 3 and 6 were given the California Test of Mental Maturity. In the spring of 1973, grades one and two take the Metropolitan Achievement Test, while grades three through six take the Iowa Test of Basic Skills. At a spring-time orientation session the prospective first graders take the Lee-Clark Reading Readiness Test. Individual testing is done throughout the year. As new students enter, they are tested to help the teacher meet the individual needs of that pupil.

JUNIOR HIGH SCHOOL

Now in the fifth year at the newly built Stoneham Junior High School, students, staff and community are making the utmost of the excellent facilities provided in this most modern school including the cafeteria, language laboratories, library, media center, closed-circuit television, auditorium with adjoining lecture halls, music area, physical education area, industrial arts area, home economics area and a few classrooms with movable walls.

Students and staff have demonstrated outstanding pride in the Junior High School by maintaining the building in a manner that has brought numerous comments on the appearance and maintenance of the school from visitors, educators and parents. This pride shown by the students has been developed over the years by the teachers and the staff showing personal interest in the students and letting them know that this is their school.

The athletic facilities and program comprise the most outstanding in the

state and have been utilized to the maximum by the junior high and high school students.

The academic program is continually being updated and revised to keep pace with the ever-changing world. This is no small task and requires hard work. These changes are not brought about for the sake of change but for better teaching and learning methods. With this thought in mind, the following innovations have been made in the curriculum during the past year.

ENGLISH

The English program was revised by having the English Department Chairman teach a class on the junior high school and high school level in order to discuss, coordinate and update the articulation of programs between the schools.

SOCIAL STUDIES

The Social Studies program as the English was revised in a like manner in order to discuss, coordinate and update programs between the junior high school and the high school. The civics program was revised by having three levels of instruction in each civics class.

HEALTH EDUCATION

Students meet with the teacher one period a week. In seventh and eighth grades this is a one semester program, while in the ninth grade it extends for the entire year. Students generally study mental, emotional, and physical health. This is broken down in the following six categories.

1 Personality and behavior

2 Emotional expression

3 Self-confidence

4 Body health

5 Relationships with peer groups, family, etc.

6 Society

This program began in September and has gone beyond the limited drug abuse prevention course taught last year.

PHYSICAL EDUCATION

The program was revised in a summer workshop to update the curriculum and materials used in physical education classes. The physical education department introduced a student-trainer course for boys, interested in learning about athletic training. The course has a textbook and the boys get practical experience by working with coaches and teachers on the junior high school level.

GROUP GUIDANCE

In their group guidance classes students study **DECIDING**, a program designed by the College Entrance Examination Board to enable students to recognize decision making as a skill of all citizens and to enable students to get practice in making decisions.

GROUP COUNSELING

The Junior High School Guidance Department has a group counseling program. Each group involves a small number of students who meet with the counselor once a week. The purpose of the group sessions is to provide students with an opportunity to discuss openly the social, educational and personal concerns common to the members of the group. The groups are discussion-centered or activity-centered, depending on the age level and specific needs of each group.

The counselors chose to run groups because groups construct an atmosphere where students can relate to a heterogenous mixture of peers on an intimate level. It also enables the counselor to reach more students than individual counseling permits.

PRE-OCCUPATIONAL EDUCATION

Every Friday morning students in the ninth grade occupational education program have the chance to meet people in the business world and learn more about the careers that interest them by visiting local businesses.

The students tour the companies with members of the personnel staff who explain company operations and qualifications for employment.

SEEM PRE-VOCATIONAL CLASS

The SEEM pre-vocational classes at the junior high school are part of

the mainstream of the school. The class provides for special students with the objective of obtaining the necessary skills and attitudes for the world of work. These special students are part of regular homerooms, study halls and classes of music, home economics, industrial arts and physical education. Those students who have the social and academic ability to be integrated in other classes have done so. Support and assistance are provided by the prevocational teacher whenever warranted. Extracurricular activities are also part of many SEEM students' programs. Work experience is also provided for all prevocational class students in either the school, library or cafeteria. The administration is constantly considering changes in the Stoneham Junior High School curriculum to insure the best possible education for its students.

STUDENT ACTIVITIES

During the past year, numerous and varied activities were carried on in the Junior High School to aid in the total education of the students - i.e., glee clubs, choral groups, model car contest, honor society, student council, public speaking, school newspaper, music night, homemaking contest, drama club, road race, youth night, and more. After-school reading classes are held for those students needing help in corrective and developmental areas. School dances, sponsored by the student council and the ninth grade class, are held both afternoons and evenings. Additional offerings are made in intramural sports - basketball, baseball, volleyball and wrestling. Many field trips take place during the year when they prove to be of sound educational and/or cultural advantage.

HIGH SCHOOL

DAILY SCHEDULE

Since April, 1971, the structure of the seven-period day has been open-ended--that is, students with assigned study halls during the first or last blocks of the day have a variety of social, academic, or recreational options to supervised study. This innovation was retained this year along with a semi-modular approach to scheduling advanced sections in a number of science subjects and major courses in home economics and industrial arts. The Stoneham Plan was expanded on October 25 of this year to provide options to quiet study for all students throughout the school day. As before, students may, by contract, leave the campus during the first and last periods with no requirement concerning their experiences except for conduct outlined in the guidelines. Throughout the remaining school day students may leave campus, by contract, to prearranged educational experiences. These include the following: tutoring students and assisting teachers at the junior high school and elementary levels; the occupational information program in which students observe in offices, businesses, trades, and professions; and the community service program through which students use their time to work with, entertain, and provide service to the elderly, the

sick, and the handicapped in the community or perform other worthwhile service. In-school options of the Stoneham Plan include open cafeteria, mini-courses, auditorium program, quiet study, library, computer room, language laboratory, special help, and tutoring fellow students. Mini-courses offered include silver jewelry and casting, personal typing, jazz and rock music, drafting, homecrafts, weight training, note hand, psychology, creative writing, golf, auto mechanics, computer use, and coaching techniques. The auditorium program includes film selected by a student committee, speakers, drama presentations, and music groups. It should be mentioned that the existing high school facilities continue to inhibit some programs and to make the addition of others extremely difficult.

SPECIAL PROGRAMS

A number of new approaches and changes took place in 1972. An important addition to the curriculum was the course in American Studies. This pilot course, involving twenty juniors at the standard level of instruction, combines third year English and United States history as well as art, music, and science. With the installation three years ago of an IBM 1130 computer and related hardware, came a strong commitment to programming instruction. Now offered to all students are semester programming courses in Fortran IV, Advanced Fortran IV, and Report Program Generator. Considerable interest in careers in art and music motivated the addition of major courses in art and in music for juniors and seniors who had completed work in sequential minors and those areas. The art major has been in existence for several years. The music major was begun this year after a summer of curriculum development and with strong student support. Physical education electives for seniors, some of them coed, were offered this year. These include bicycling and bowling, slim n'trim, volleyball, touch football and health. Investigations were made into the feasibility of initiating an Outward Bound program at Stoneham High School. As a result, plans are in progress to develop our own program and to explore Outward Bound as a possible alternative in assisting students with special problems. At the recommendation of the High School administration, the Stoneham School Committee voted, in October, 1972, to modify existing graduation requirements. Graduation in seven semesters was provided for as well as added flexibility for part-time study designed to encourage students to return to school and citizens who have not earned a diploma to do so.

OCCUPATIONAL EDUCATION

More than ten percent of the students in grades 10-12 are enrolled in occupational education programs. Individualized work-experience programs, now in their third year of development at Stoneham High School, offer on-the-job training in the following occupational areas: merchandising

and retail business, office and clerical work, public service assignments, electro-mechanics, food service and automotive maintenance. Supervisors coordinate these assignments with cooperating employers. The automotive service program began in September, 1972, as a result of local interest and donations of equipment and instructors' training by a major oil company. The distributive education and health aide intern programs have enrolled significantly larger numbers of students in 1972. The food and health aide programs now offer an uninterrupted week of internship placement activities, alternating with a week of classroom instruction and field trips in the School Department's "mini-bus." The New England Memorial Hospital continues to play a strongly supportive role in training interns. An example of the excellent results to be obtained from the efforts of citizen advisory committees was the dinner and program about food careers presented for parents and cooperating employers in October. Student representatives have also been added to the occupational education advisory committees this year. A full-time career guidance specialist has significantly improved the counseling services available for students considering occupational exploration activities or entering cooperative education assignments. In addition to federal "start-up" funds, half of the operating costs of these occupational preparation programs are reimbursed by the State.

SPECIAL EDUCATION

In accordance with recently passed state laws regarding equal educational opportunities for children with learning disabilities and special educational problems, the Stoneham School Department appointed a Director of Special Education in 1972 in order to deal more effectively with these problems.

On the secondary level, the SEEM Pre-Vocational Classes are part of the mainstream of the schools. Classes provide students with objectives for obtaining the necessary skills and attitudes for the world of work. At the high school, fifty percent of the students are in work porgrams, and eight senior students are expected to graduate this June.

STUDENT REPRESENTATIVES TO SCHOOL COMMITTEE

For the first time in Stoneham's history, high school students have elected five of their peers to act in an advisory capacity on the Stoneham School Committee. This was motivated by and goes beyond recent state requirements for student representation on school boards. These junior and senior high school students convey student viewpoints and often aid the School Committee in their decision-making process.

CONCLUSIONS AND PROJECTIONS

Curriculum assessment and development continue to have top priority in all the planning of the School Department. Some of the priority areas of a long list of needs in 1972 were: a new kindergarten program for September, 1973, increased requirements for all areas of special education, and greater attention of individualizing instruction for each child. Space has become a major problem both in planning programs and in the adjustment of existing programs.

Great effort is being expended to try to improve facilities for speech therapy, health rooms, elementary level guidance counseling, and centrally organized library and/or media centers in our elementary schools.

All planning centers around the new educational development methods in order to motivate individual learners to build positive attitudes toward a lifetime of educational pursuits and creative interests.

A study of education in Stoneham was completed by the State Department of Education in 1972. It is hoped that the findings of this comprehensive analysis will assist the School Department in directing future educational planning procedures.

In the past three years, the development of preoccupational exploration and occupational work-experience programs, and more recently, of voluntary service activities as part of student's total education, are a good beginning. In short, our children and young adults must be prepared positively to contend with and to respond to a world of rapid change without losing cultural values.

The School Department wishes to express appreciation to all of the school staff members who have contributed to providing a good educational program for the youth of Stoneham, and, in addition, to many related services for the townspeople as a whole.

Appreciation is expressly given to parents and to students who have volunteered their time for committee work and for other special efforts, the United School Councils Committee, School Councils and Parent-Teacher Leagues, the Stoneham School Committee, Self-Study Committees, Stoneham Public Library, Finance and Advisory Board, Public Works Department, The Town Clerk, the Town Treasurer, the Town Accountant, Police and Fire Departments, other representatives of local government, Eastern Middlesex Guidance Clinic, Project SEEM (regional special education agency), the Stoneham Teachers' Association, the League of Women Voters, the Booster Club, and other departments, agencies and individuals who have given time and effort or have otherwise cooperated with the schools.

The School Department is very appreciative of the confidence, cooperation, and support regularly given by students, parents, and other citizens of Stoneham.

Respectfully submitted,
DANIEL W. HOGAN, JR.
Superintendent of Schools

NOTE: In the interest of economy statistical information about the School Department has not been printed in this report.

A complete detailed report of the School Committee has been placed and is available in the Superintendent's Office, in the school libraries, and will be made available to the public library.

Report Of The
Department Of Veteran Services

Board of Selectmen
Town of Stoneham, Mass.

Honorable Board of Selectmen:

At the Annual Town Meeting in March the sum of $102,500 was appropriated for Veterans Benefits. This was a reduction of $11,500 from the previous year.

We made this reduced request anticipating that the State "Medicaid" program could be used in Nursing Home and some Hospital cases.

We cannot completely eliminate Medical care cases because "Medicaid" applies only to children, persons over 65 years of age and some totally and permanently disabled persons. This leaves a substantial number of Veterans and their wives who fall between these age groups who are eligible to receive medical attention through this office. The standard for eligibility for medical care is determined by the State Department of Medical Costs.

The unemployment situation continues to grow more serious. Most of the Veterans, who have come to this office, have had good jobs, often for ten or fifteen years. Most of them have been able to find new jobs but the period in between has been the longest we have ever experienced. Most of them have come to us only after employment benefits have been exhausted even with the Federal extensions. Some with large families, we have had to aid with supplements to Unemployments Compensation in accordance with the Veterans Commission's directive.

During 1972 the Commissioner's office made no increase in the Cost of Living for our budget schedule. With this, we have been able to stay within our requested appropriation. For the coming year we will have to anticipate a substantial increase. We will also have to expect an increase in the medical costs.

We continue to devote the major part of our time to "Veterans Services." As part of the State's Veterans Services Program we have a contact Office in the Veterans Administration Building. This gives us, under the Deputy Commissioner of Veterans Services, immediate contact with the V.A. for processing of claims for compensation, pensions, medical and hospital care, insurance, education, and home-buying.

We also have contact with the Soldiers Home and the Bedford V.A.

Hospital for assistance to eligible Veterans for treatment and rehabilitation.

There have been a great increase in the number of Viet Nam returnees who are seeking assistance with insurance, schooling programs, the bonus, etc. We continue to maintain a Selective Service registration office for registrants who would otherwise have to go to Cambridge and we have provided contact for them whenever any problems have arisen.

Because the changes in the V.A. Laws, we have had many older persons to help with pension claims and reports and we have assisted many of them with tax exemption applications.

We provide Civil Service registration for the Labor Service, also assist with applications and information for all the other kinds of Civil Service as well.

I wish to express particular thanks to Mrs. Gertrude Hamill, whose experience with the varied Veterans programs has been most helpful to this office.

Very truly yours,
William L. Curran
Veterans Agent and
Director of Veterans Services

Report Of The Stoneham Youth Commission

The Youth Commission in 1972 took positive steps to identify those areas of youth activity that required action and to open up channels of communication to obtain feed-back directly from the youth of the town. A comprehensive survey was conducted involving all of the youth oriented organizations in town. As a result a "Youth Activities Index" was published and distributed through the schools.

The Youth Council composed of students in grades 7 through 12 was expanded to include four members from each grade with co-ordinators appointed from both the junior and senior high schools. The Youth Council has beem more closely integrated into the Commission activities and now plays a major role in counciling the Commission on the direction of youth programs.

The Youth Council members include:

Sam Covino	Irene Valenti
Susan Kehoe	Robert Sullivan

Donna Zampell	Peter Bulpett
Mary McGinn	Mike McKee
John Vennochi	Julie Andrews
Janice Dempsey	Corinne McDermott
Margie O'Toole	Lisa McMaster
Ann Wiley	Kathy Poor
Kim Tolman	Annette Boccelli
Richard DiMarzo	Kathy Kille
Lisa Reis	Pam Mercer
David Kelley	Roger Muir (graduated)
Faith Curley	

A full time Youth Co-Ordinator was appointed by the Board of Selectmen to act as the Administrator of the Commission programs and to co-ordinate with the town's other youth activities. The funds for this individual were made available from the Federal Emergency Employment Act of 1972. The Youth Co-Ordinators for 1972 were: Jeff Hansis (resigned), John Barrett.

In order to provide emphasis in specific areas of youth actions responsibility for co-ordinating particular programs has been assigned to individual members of the Commission. These appointments include:

Director of Atheletics - John Rolli
Director of Employment - Mary Wiley
Director of Education - Charles Flahive
Director of Entertainment - Robert Ellis
Director of Recreation - James McDermott
Director of Drugs & Counciling - Irene Donovan

To provide a point of contact with other youth oriented organizations the Commission members have parallel assignments as:

Liasons:
- Town Board of Selectman - Paul Murphy
- State & Federal Agencies - Irene Donovan
- Police, Courts & Detention Centers - James McDermott
- School System - Charles Flahive
- Youth Organizations - John Rolli
- Religious Organizations - John Barrett
- Mental Health & Guidance Agencies - Mary Wiley
- Youth Council - James McDermott

Athletic Program

In 1972 the Youth Commission sponsored an athletic program at the High School gymnasium. The summer phase began after school ended in July and

ran until the first week in September. Sessions were held Monday through Friday from 6:30 P.M. - 9:30 P.M. The program is free form in that there are no organized leagues. The gym is open to all young people of Stoneham who want to use the equipment or participate in the physical activities. The winter program began in November. It consisted of one night per week (Thursday) with the time, place and activities being the same as during the summer.

Employment Program

The Employment Program has been a two phased activity. Prior to the summer vacation the commission cooperated with the School Department to sponsor and operate a Summer-time Employment Program for Students (STEPS). This was staffed by high school seniors who contacted employers in Stoneham to arrange for summer jobs for local students.

During the winter a similar activity has been conducted under the coordination of the Director, Mary Wiley and the Youth Co-Ordinator. It is hoped that this employment program for young people can be continued on a year round basis.

Entertainment Program

The Youth Concerts were held during 1972. The first was held in July at Recreation Park. There were over 800 in attendance including many adults. In November better than 500 students attended the concert held in the Junior High School Auditorium. Both performances had the same performers, two very popular rock groups in town. Both of these activities suggested by the Youth Council were very well received.

Drug and Counseling Programs

In August a proposal was made to the State Department of Youth Services to obtain a grant to establish a Pre-delinquent Youth Guidance Program. The program would be administered by a Program Director to provide referral and counseling services while coordinating other youth programs. There would also be established the position of Psychiatric Social Worker, which would involve counseling for social and emotional problems.

In December a meeting was held with the Eastern Middlesex Guidance Center to lay the groundwork for possible mutual support by both agencies in the prevention of many youth problems within the town.

1973 Plans

Tentative plans have been prepared and budget requests made to conduct the following Youth Commission activities in 1973:

1) Occupying a new office in the old Police Station for permanent use of the Youth Commission.

2) Conducting the following programs:
   a) Summer Gym Program
   b) Winter Gym Program
   c) Five Youth Concerts
   d) Youth Employment Program
   e) Youth Film Festivals
   f) Open School Facilities
   g) Youth Stage Production
   h) Additional Field Days
   i) Girls Summer Softball League
   j) Police-Fire Dept. Youth Softball Tournament.

Respectfully submitted,
Paul J. Murphy, Chairman
Charles Flahive
James McDermott
John Rolli
Mary Wiley
Irene Donovan
John Barrett, Youth Coordinator

Annual Report Of The Computer Study Commission

To the Honorable Board of Selectmen:

The following report of the Computer Study Commission is hereby submitted for the year ended December 31, 1972.

The five member commission was created by appointment by the Board of Selectmen in April 1971.

The commission is now in its final stages of study and in the process of writing a final report to be submitted to the Board of Selectmen.

During 1972 the commission has completed an extensive study of the needs within various departments of the town of Stoneham. It has also been in contact with other towns that are currently using data processing equipment and - or are considering usage in the near future.

Members of the School Department have not met with the commission and have provided information pertaining to the current use of the existing system and their projected applications for the future.

The commission has met with four major computer companies. It considers that these companies represent a fair sampling of the major computer companies in today's market in the areas of equipment, costs and provided services.

It is expected that the commission will present the Board of Selectmen with its final report by mid February.

In this report the commission will propose a series of recommended actions. These proposals will be based upon the studies in the areas of,

1. the school and its future need of computer services
2. Town departments and their need for a data processing center
3. projected costs of equipment now in use or necessary in the near future by both areas of concern.

The commission will present their opinions with regard to the type of equipment necessary to up-date present town systems and propose new procedures necessary for the efficient and economical operation of all town departments.

An article pursuant to the Warrant for the town meeting has been submitted.

It is considered imperative by the Computer Study Commission that we thank both the individual town departments and members of the school departments for their cooperation without which a study of this nature would not have been possible.

Respectfully submitted,

Stoneham Computer Study Commission

Report Of The Public Librarian For The Year 1971

This is the 113th Annual Report of the Public Library. The year 1972 was the year which gave promise of fulfilling plans for a program long overdue, to provide better library service to the 20,565 citizens of Stoneham. At the March Town Meeting, Article 19 received favorable action and provided $12,000 to engage an architect to prepare preliminary drawings for future construction of a library building. In July, the moderator appointed a Building Committee of five, authorized under Article 20 of the Annual Town Meeting. The Committee includes Lawrence A. Lang, Jr., Chairman; Dr. Max J. Klainer; William A. McIntosh, Library Trustee; Frances A. Akell; and Elizabeth S. Garbarino, Librarian.

It is especially satisfying to note the number of people who have availed themselves of the resources of the library by the fact that well over 50 percent of the population are registered library borrowers.

The library loaned 199,173 library materials during the year, and answered approximately 7,690 reference questions.

ADULT SERVICES

Boston Public Library began daily delivery service in April and the Eastern Region, through Boston Public Library also provided printed reading lists, posters, display materials, and reference service, thus enabling us to meet the needs of Stoneham residents more efficiently. We borrowed 520 books on Interlibrary loan, and 375 films from the Massachusetts Film Cooperative and Boston Public Library. We loaned out a total of 393 films.

National Library Week, April 18-22, was highlighted by a week long exhibit of paintings by Karen and Bill Velmure, local husband and wife artists. On April 19 they demonstrated their work from canvas to finished paintings in acrylics to an overflow audience in Library Hall. Bill painted a field of wildflowers which was purchased by Mrs. Evelyn Bates of the library staff and presented to the library to be hung in the future new building.

Library Hall was used 264 times by 23 different organized groups in the town.

Monthly service to the Nursing Homes, Home for the Aged People, and Housing for the Elderly, was provided, and we loaned them a total of 2,884 books.

Non-fiction books and pictures were loaned to adults from Melrose, Wakefield, Lynnfield, Saugus, and Reading on a Common Borrower's Card arrangement. Reciprocal borrowing privileges continued with Medford, Winchester, and Woburn.

The library was awarded a citation from Northeastern University and Maxine Schultz in June in recognition of our cooperation, encouragement, and understanding, which contributed greatly in making graduation a reality for Mrs. Schultz.

CHILDREN'S SERVICES

Miss Margaret Golding explained library procedures and instructed several classes from public schools and Seventh Day Adventist Schools, in the use of the library. The Community Kindergarten also visited the library for a brief introduction, a story, and a film.

Monthly collections of books were sent to 100 classrooms, totaling 33,699 books loaned to the elementary schools.

Pre-school story hours on Friday mornings from October to June continue to be popular, and attendance for the season was 563.

Library Hall hums with activity and excited children as they come to see the movies on the second and fourth Thursday of each month, from October to June. Four hundred and fifty children enjoyed these programs during the year, under the direction and planning of Mrs. Patricia Naughton.

The special summer reading program, under the leadership of Margaret Golding and Patricia Naughton, took its members to far off places they wanted to visit via books. Along with exhibits of articles from foreign countries provided by the children and the library staff, the children got the feel of customs, dress, sports, and foods of other parts of the world. Awards were made at the end of July to the children who read and reported on at least five books.

Mrs. Edith Boehm exhibited art work of more than thirty young art students, ranging in age from eight to twenty years.

STAFF

Staff members attended meetings of professional organizations as follows: Massachusetts Film Cooperative, Massachusetts Library Association, Young Adult Book Review Group, North Shore Library Club, Eastern Region Film Group, Greater Boston Public Library Administrators, American Library Association, New England Library Association, Eastern Mass. Regional Library Group, Children's Librarians, and Technical Services Librarians.

Mr. William Hoyt, Library Trustee, participated in a panel discussion "How Does School Media-Public Library Cooperation Work?", at the New England Library Association Conference in October, at Wentworth By-the Sea, Portsmouth, N.H.

Miss Margaret Golding and Mrs. Eloise Forrest were hostesses to the local Children's Librarians in January. Ideas were exchanged on Library policies and summer program projects.

Mrs. Evelyn Bates reviewed books for the Congregational Church in April.

There were several changes in part-time staff this year. The following people resigned to go on to other jobs or to continue their education: Karen Dechert, Marie Dooling, Susan Kehoe, and Beverly Smith. We were happy to welcome Kathleen Sullivan this summer, a work-study student from Regis College, and Ellen Lusas, a senior at Stoneham High School. Mrs. Maxine Schultz began part-time work in December and has been appointed as new Reference/Young Adult Librarian, effective January 1, 1973.

The Eastern Region sponsored workshops for librarians on Interlibrary loan, and story telling, and several of the staff participated in these projects.

Mrs. Ann Pullo attended the University of New Hampshire this summer under their Public Library Techniques program. A certificate of achievement is awarded to students who complete the required courses.

Mrs. Evelyn Bates, Reference/Young Adult librarian, retired December 31, after eight years of service at the library. Mrs. Maxine Schultz will fill this vacancy. Mrs. Schultz is a 1972 graduate of Northeastern University, where she majored in English and minored in Library Science.

GIFTS

It is a pleasure to extend my sincere thanks and appreciation to the many individuals who donated books, records, and periodicals to the library during the year, which totaled 327 gifts. Other gifts to the library were as follows:

Stoneham Arts & Crafts - money.
Stoneham-Wakefield Stamp Club - money.
Catholic Women's Club - money.
Stoneham Garden Club - Floral displays throughout the year, planting in front of the library, and a book in memory of Mrs. Reba Newman.
Tapered Tops - book truck and money.
Friends of the Library Chorus - money.
Stoneham Cooperative Bank - printed bookmarks and plastic bags.
Malden Trust - printed envelopes for borrowers library cards.

Mrs. Jane O ' Leary - money.
Mrs. Helen H. Trowbridge - money.
Mrs. Evelyn S. Bates - a painting.
Stoneham Independent - excellent publicity.

My personal thanks goes to the Board of Trustees for their assistance and support; to my loyal staff for their cooperation; to the custodians for a great job in maintaining the library; and to the Town Officials and Department Heads for their assistance and pleasant relationships.

Annual Report Of The Planning Board

To the Citizens of Stoneham:

The Planning Board held its 1972 re-organizational meeting on March 29,

1972 when board members re-elected Thomas W. Foster as chairman and William S. Coy Jr. secretary.

The board held thirty regular meetings, four informal meetings and eight public hearings during the year.

Twenty-six plans were signed as not needing approval under the subdivision control law. Two new subdivisions were approved. Major development for residential purposes will occur near East Street and the Wakefield line; Morgan Ave. and behind the Junior High School property off Sunset Road.

During the past year the board was fortunate to obtain the services of a Planner, Mr. Noel Stone, through the E. E. A. at no expense to the town. Mr. Stone's prior experience includes work on the following: 1. Department of Interior project studying the economics of reducing pollution on the Nashua River. 2. A study for the President's Council on Environmental Quality concentrating on the effects of proposed pollution control on the tanning industry.

Mr. Stone has worked on the best use of open land and is writing standard practice procedures for the Planning Board and site plan procedures for the Board of Selectmen. He has also completed a reorganization of the existing zoning by-law into a more consistent and systematic form. No district boundaries, uses or dimensional requirements were changed. Research was instituted into the original by-law, and out of that research, changes in statement were made to clarify the meaning of the by-law. Inconsistencies were eliminated and new definitions were added. A revision of Section 18, having to do with site plan approval was again prepared. The first revision of section 18, approved by the town at the last annual town meeting, was subsequently disapproved by the Attorney General due to defects in procedure outlined therein.

Realizing the need for low cost housing in the town and with full knowledge of the fact that there is a limited amount of land for apartments, the board prepared an article for the annual town meeting amending the Zoning By-law by declaring a moratorium on apartment construction for two years. This article provides for the appointment of a study commission to advise the town on apartment construction.

The board has been concerned with the center of town. No real improvement has occurred in this area since Urban Renewal was turned down. In view of this concern, an article will be presented at annual meeting to appoint a central district study committee to formulate a town policy and prepare a plan for revitalizing the area around the square.

Another concern is with a large parcel of land along Montvale Avenue

which the board is proposing be zoned under an additional article for a Limited Business District which provides for the erection of motels on large plots of land under a special permit by the Board of Appeals.

The board is of the opinion that Stoneham, being located within twelve miles of Boston, will continue to grow and in order to prevent development of remaining open land for purposes not beneficial to the town's future, professional advice is required. We will apply for Federal and State funds for use of the Study Committee for Central Square and the Moratorium Housing Commission.

We wish to thank the members of the town boards, Town Counsel, Building Inspector and Town Engineers for their cooperation and interest throughout the year.

Biologic products and diagnostic kits provided to the Board of Health by the State Department of Public Health are dispensed to local doctors and to the New England Memorial Hospital on request.

There were thirteen (13) premature infants born to Stoneham parents during the year 1972. A premature infant is described as weighing less than five and one-half ($5\frac{1}{2}$ lbs.) pounds at birth. Parents of premature infants may request assistance from local Board of Health in paying hospital charges on infant care in remote cases. (Chapter 559-Section 67 C of the General Laws of the Commonwealth). Each case receives individual attention.

The annual dog clinic was held on March 18, 1972 with 294 dogs, owned by Stoneham residents, receiving immunization against rabies. All owners of dogs six months old or more must have their dogs immunized against rabies, either at the Board of Health Clinic or at their Veterinarians', prior to applying for their annual license. (Chapter 140-Section 145B of the General Laws of the Commonwealth). Vaccine used at the Board of Health Clinics immunizes for a period of two (2) years.

I also supervise and work with the contractors on pest control.

On occasion I have requested and received the cooperation and assistance of the Fire and Police Departments, the Building, Wire, Plumbing, and Gas Inspectors as well as the Superintendent and the Engineers of the Public Works Department in health related matters.

In conclusion, I would like to thank the Board of Health Personnel and various Town Officials who have aided me in the past year. And thanks to you Townspeople of Stoneham for your fine cooperation.

Respectfully submitted,
Frederick F. Mosley,
Health Officer.

REPORT OF THE DENTAL HYGIENIST.

I hereby submit my report for the period beginning January 1, 1972 and ending December 31, 1972:

Total number of examinations	2326
Total number of children requiring little or no dental care	2076 or 87.9 percent
Total number of children in need of immediate dental care	286 or 12.1 percent
Total number of children taken to Forsyth for cleaning	887
Total number of children who received a fluoride application in addition to a cleaning at Forsyth	775
Total number of children who received a cleaning and fluoride application at the Town Hall Dental Clinic	110
Total number of children treated by the Board of Health Dentist, Dr. John V. Smallcomb	47

Work done at Dr. Smallcomb's office consisted of the following:

Examinations	4	Zinc Oxide Amalgum Fillings	23
Bite-Wing X-rays	33	Dycal Amalgum Fillings	5

Periapical X-rays	8	Adaptic Fillings	10
Oral Prophylaxes	3	Ducal Adaptic Fillings	14
Fluoride applications	3	Extractions	20
Amalgum Restorations		Prosthetic Appliance	1
(1, 2, and 3 surface)	85	Cauit Fillings	2
Zinc Oxide Fillings	17		

The Dental Hygienist performs the following duties:

1. Examines the teeth of each school child in grades 1 through 6.
2. Notes all cavaties or any other oral defect.
3. Notifies parents when excessive cavities are present.
4. Confers with parents in the home regarding dental care for the child, and assists in arranging for correction when possible.
5. Transports children to and from the dental clinic and the dentists office.
6. Acquaints all children with good dental health measures, such as brushing technique and regular dental visits.
7. Keeps accurate records of daily work, financial transactions and appointments.
8. Attends in-service training programs for public health Hygienists.
9. Acquaints parents of pre-school children with the dental program at the school registration-orientation meetings.

At the completion of my second full year as Public Health Hygienist I can see a great improvement in the dental health of the children.

Parents, the school department, and students have whole-heartedly cooperated in carrying out a most worth-while dental program.

Respectfully submitted,

Gail A. Scarpello, R.D.H.

REPORT OF THE BOARD OF HEALTH NURSE--1972

The year 1972 proved to be very rewarding in the field of prevention. It has long since been an ideal of the Health Team to be able to do visual health prevention in the very young child. In the past the Team has not been able to reach these youngsters, as the present testing machine was not geared for this age group. After many false starts in Nursery and Kindergartens and telephone conferences with the experts in this area at the Division of Maternal and Child Health. We were informed of the Michigan pre-school slides to be added to our present machine we purchased these in December, 1971 and re-started in January, 1972. The doctors and parents seemed to be as pleased as we are with the early detection of visual problems. Some 3 year

olds are very young and need repeated exposure to the tests and testors before they respond. The 4 - 5 year olds pick up the direction more rapidly. Approximately 300 were screen tested, 40 were retested, and 31 failure notices were sent to parents and doctors.

January, February, and March:- In addition to our routine daily work we conducted the Annual Tuberculin Tine Testing Program in all Stoneham schools, grades 1-4-7-11, with 23 positive reactors. The reactors are then given a stronger test and if the individual remains positive, the families are then screened and all are sent to the Middlesex County Sanitarium for x-rays and follow up work. In the schools alone there were 1600 students screened. This all sounds so simple a program and in truth the days of the clinic are, however, there are many hidden hours of checking and rechecking, paper work, and telephoning to set up clinic dates, etc. The school nurses are responsible for obtaining the parental permission on the children in each grade. Mrs. Robert Tufts and I have to be sure if the history of tuberculosis on each child and family is correct before testing.

In March: - Miss Gail Scarpello, D.H. held a 7 day Dental Survey at St. Patrick's School and concluded with a film strip for each grade. Floride treatments have really made a remarkable difference in the over all picture of dental hygiene of the students. Each year there has been a steady improvement. 6 Children were taken to Dr. John Smallcomb for dental work until completion.

In February, I started a course on Tuesday evening 7-10 P.M. for 12 weeks in "Leadership Training". This course was not just for professionals and proved to be very interesting and helpful.

Each Tuesday for 6 weeks I held a discussion group with 7 eighth grade girls for 1 hour. This was done under the guidance of Miss Barbara Duffy, School Counselor and Mr. Benjamin Chiampa from the Guidance Center. These sessions proved very rewarding to all concerned.

Each Wednesday P.M. throughout the school year we attended school faculty meetings.

Attended an all day meeting and conference with the Mental Health Association in April. This included the Board members, Staffs of the Guidance Center, and State Mental Health personnel.

June and July we held clinics for Nursing Home personnel for T.B. certification as required by State law.

The summer months are spent in making home visits and doing record work.

Each Fall we start the annual physicals, dental survey, speech therapy, heights, weights, and audio and vision testing on each child. In addition we do the audio and vision screening at the Seventh Day Adventists school and all nursery and kindergartens.

Miss E. Rodman, Speech Therapist conducted a survey at St. Patrick's school and accepted 11 children for therapy.

We conducted 8 Clinics for routine pre-school Immunization this year. Vaccines available are Diptheria, Tetanus, and Whooping cough, Oral Polio, Measles and German Measles. We now need much more time to administer these vaccines as some can not be given together and with others we have to wait 6-8 weeks between vaccines. We are hopeful that soon some pharmaceutical company will perfect a vaccine combining some of the various strains so that the immunization processes could be shortened and the child be completely immunized at an earlier age.

In June of this year the State Department Division of T.B. Control and all County Hospitals adopted a new policy. They will no longer x-ray the great numbers of people on request from doctors or the individual. All persons now sent to the Middlesex County Sanitarium (the host for Stoneham) must be a known positive reactor to the Mantoux test, a tuberculosis skin test. This leaves room for them to do a more thorough test, physical, and follow up where it is most needed. The screening of these individuals has now become the duty of the local health departments. As of September we have been holding the screenings on a monthly or a bimonthly basis as the number of requests come into the office. This testing is very simple time-wise, results must be read in 48-72 hours. All positive reactors are then given a written request and an appointment at the Sanitarium for x-rays and follow up. Some of the requests are from T.B. patients or contacts. Most however, are routine screening for work certification such as foodhandlers, teachers, etc.

Needless to say this report just covers the highlights of the year. Much work at school and in the homes is very routine most of which can not be put into a printed report. For the most part we have found schools and personnel, families, foodhandlers, etc., very willing and eager to cooperate.

In my own area of work for the Board of Health I have found it runs very well due to the help and cooperation of the Board Members, the Health Officer, and the Agent. Dr. John A. Danis as always has been very obliging no matter what program or problem may arise.

There are days when we are testing that various cases and / or problems arise and we have to scrap the morning or days agenda, this becomes very frustrating when we do so much of the work as a Team.

My daily work and many programs are made more pleasant because of the loyalty and cooperation of Mrs. Robert Tufts, nurse-clerk and Mrs. Robert O'Melia, R.Y. part-time Board of Health Nurse.

Annual Report Of The Fire Department

Honorable Board of Selectmen
Mr. Albert Symes, Chairman
Stoneham, Massachusetts

Dear Mr. Chairman:

It is with pleasure that I respectfully submit the 1972 Report of the Fire Department.

During the early part of the year, countless man hours and hundreds of feet of hose were utilized, under the most adverse conditions, in assisting our

neighboring Town of Wakefield. The disastrous fires had a tremendous economic impact on that community.

In Stoneham, during the year, the worst incident attributed to fire was the loss of life of a three year old child.

Whether it be property or life, fire strikes quickly, and a communities Fire Department must be properly manned and adequately prepared to suppress it. It is my goal to provide you with this assurance.

The personnel of the Department consists of: One Chief, four Captains, four Lieutenants, twenty-eight Privates, and one temporary firefighter funded under the Emergency Employment Act.

FIREFIGHTING

1043 fires, or other emergencies, were reported in 1972. This is a decrease in relation to 1971 and is partly due to the year being extremely wet. This means less woods fires. I would also like to believe that our Fire Prevention activities were also a factor.

Of the 1043 alarms, 210 were Box alarms (71 of these were false; 40 were Mutual Aid to other communities; 99 were for fires or emergency problems in homes, apartments, and business establishments).

There were also 833 Still alarms (112 of these were for brush fires; 132 car and truck fires and accidents; 70 water problems; 92 calls for oxygen and several hundred more for many varied reasons.

The amount of property endangered by fire	$ 4,399,000.00
The amount of property destroyed by fire	53,839.00
The amount of insurance paid	48,239.00
The amount not covered by insurance	5,600.00
The amount of damage to Motor Vehicles	27,050.00

FIRE PREVENTION

In an endeavor to make people aware of good fire safety practices, this department conducts many programs. In the school system, we have the Forestry, Junior Fire Marshall and Fire Department Poster contest. These three programs are directed at the kindergarten, third grade and sixth grade levels and involves over 1,000 youngsters. Fire safety was also given to 200 prospective baby sitters.

Inspections were conducted in 250 business establishments, 19 schools, 4 nursing homes and the New England Memorial Hospital.

Fire drills were also conducted in the schools and Hospital.

Captain George Emery and Lieutenant William Meegan manned a Fire Service booth on Hospital Day that attracted many people. The colorful display was the work of Firefighter William Abbott.

Extinguisher demonstrations were given to cafeteria workers, High School students and a manufacturing plant, by Lieutenant William McLaughlin.

The prevention of fire is a primary objective of a Fire Department and we shall continue to expand in this direction.

FIRE DEPARTMENT TRAINING

The Department held equipment drills, street drills, and elevator rescue work.

Captains James McDermott and George Emery attended Officers Instruction Course at the North Shore Community College.

Lieutenants Charles Fitzgerald and William Meegan and firefighters Kevin Wynne, William Kelley, William Abbott, Arthur Reidy, Charles Greenleaf and John Fullerton attended training classes held by the Topsfield Training Center and the Massachusetts State Training School.

FIRE ALARM

Another section of Main Street aerial wire was placed underground. This was a substantial project and was located between Flint Ave. and William Street. Also underground cable and boxes were installed in the Fieldstone Drive development. New replacement boxes; new line wire in many areas of the Town; trouble shooting on circuit problems; utility pole changeovers; testing and the installation of new boxes on several business establishments, were some of the other functions of the fire alarm crew.

Many changes were made throughout the Town so that Cable T.V. could be installed on the poles. This was a big job and it was funded by the Cable T.V. Company.

RETIREMENTS

The department lost the services of two excellent firefighters due to disability retirements. Captain John Judge and Firefighter - Mechanic Francis Wells contributed much expertise over the many years of faithful service to the Town. Captain Judge was in charge of Fire Prevention and

Firefighter Wells was responsible for the repair and maintenance of all the equipment and apparatus.

SUMMARY

The immediate needs of the Department are additional men and the repair of the apparatus floor.

The Stoneham Department is the smallest of any of our contiguous communities and yet our area, population and alarm frequency is comparable to, or greater than theirs in most cases. It is important, therefore, to maintain a force capable of meeting the fire protection problems of Stoneham. I urge the appointment of two men in 1973 and one man in 1974.

A year long survey was conducted by the Souza & True Engineering firm, as to the structural strength of the apparatus floor. It is their recommendation that it be reinforced. The station was designed for horse drawn apparatus back in 1916 which of course weigh considerably less than our present equipment.

The cooperation of all Town officials, Boards, Committees, members of the Fire Department and citizens of the Town, was excellent throughout the year.

I also wish to thank Mrs. June McTaggart, who is the Fire Department liaison officer, and the rest of the Board of Selectmen for their fine cooperation.

Respectfully submitted,

Raymond L. Sorensen
Fire Chief

permits and granted 104 firearms identification permits. Officers also conducted drug education programs at the Stoneham High School, Junior High School, St. Patrick's School, New England Memorial Hospital, Lion's Club, P.T.A. Groups, Boy Scouts and the Rotary Club.

Commendations:

October 31, 1972 - Officer Charles Haney, Jr. was officially commended by the Board of Selectmen for the apprehension of a felon at Love's Furniture Store.

October 31, 1972 - Officer Anthony Marino was officially commended by the Board of Selectmen for apprehension of a felon at Love's Furniture Store.

Juvenile Crime:

Delinquency among minors decreased in 1972, with 116 minors arrested for various criminal offenses, compared to 140 minors arrested in 1971.

One (1) minor was arrested for armed robbery, one (1) for aggravated assault, 7 for burglary, 12 for larceny, 11 for automobile thefts, including 3 fourteen year old females. One minor for forgery, one for buying stolen property, 9 for vandalism, one for carrying a dangerous weapon, 2 minors were arrested for rape, 20 for selling narcotics (drugs), three for operating a motor vehicle under the influence of liquor, 7 minors for illegal possession of alcoholic beverages, 20 minors for drunkeness and 9 for disorderly conduct.

Adult Crime

Burglaries decreased with 154 reported in 1972, compared with 177 in 1971. Twenty-two (22) persons were arrested for this offense in 1972. Armed robberies also decreased, with 16 robberies reported in 1972 as compared with 22 in 1971. Five persons were arrested for this offense.

Larcenies over $50.00 also decreased, with 111 reported in 1972 in comparison to 119 in 1971. Twenty-two persons were arrested for this offense.

Larcenies under $50.00 reflected a substantial decrease with 193 reported in 1972 compared to 295 in 1971. Seven persons were arrested for this offense and restitution was made in 23 cases.

Ninety-four cars were reported stolen in 1972, compared with 119 in 1971. Seven persons were arrested for this offense.

Eighty -five stolen vehicles were recovered and nine are listed as not recovered. Also, forty cars reported stolen in other jurisdictions were recovered by the Stoneham Police Department.

Nine persons were arrested for possession of burglarious tools, two for carrying firearms without a license, and one person for forgery. 26 complaints of malicious damage were made and nine persons were arrested for this offense. Eighteen adults were arrested for illegal sale and possession of narcotic drugs; sixteen adults arrested for operating a motor vehicle under the influence of liquor and thirty-eight persons were arrested for drunkeness. Seven adults were arrested for offenses against family and children. One person was arrested for book-making.

Summary

The Police Department moved to its new quarters on December 11, 1972, and the new building is a tremendous improvement and very functional. I want to take this opportunity on behalf of the men of my department to thank Mrs. Angie Crockett for her generosity in donating $200,000.00 towards the construction of this new Police Station, and to thank the Taxpayers of the Town of Stoneham, who voted an appropriation of $100,000.00 for the completion of this project.

I also want to express my appreciation to the Love Furniture Company of Stoneham, for establishing a "Policeman of the Year" annual award to a deserving Police Officer for faithful and dedicated service.

Officer Edward P. McLaughlin was the recent recipient of this award in 1972 by a unanimous vote of the Committee.

The Department also appreciates the gifts to the New Stoneham Police Station provided by Barbo's Inc., Love's Furniture Store, Stoneham Savings Bank, Stoneham Cooperative Bank, Malden Trust Company, Middlesex Bank, Sunnyhurst Dairy Co., Knights of Columbus, American Legion Post, Stoneham Rotary Club, Pettengill Motor Sales and the Severance Trucking Company.

Finally, I want to thank the Board of Selectmen, the Police Station Building Committee, the Board of Public Works, the Planning Board, the Appeal Board and the various other boards and department heads for their splendid cooperation during the Year of 1972.

Respectfully submitted,

Bernard C. Vacon, Chief

Report Of The Board Of Public Works

The Board of Public Works meeting March 13, 1972 organized for the year as follows: John E. Finnegan, Chairman of the Board, with members John E. Shaughnessy and Eugene B. Rotondi, Jr. Mr. Finnegan was re-elected to the Board on March 6, 1972 for a three-year term. Mrs. Pauline Moody was appointed Clerk of the Board. The Board appointed Mr. William J. Reid, Jr. as Superintendent of Public Works and Mr. Thomas J. Murphy as Assistant Superintendent of Public Works.

The Public Works Department is a service oriented business which touches all the residents of the Town. Being a consolidated department allows for the most efficient use of the manpower and equipment within the various divisions by virtue of the high degree of interchangeability.

The sewer construction program continues with the maintenance of the evergrowing system becoming a more significant factor each year. This year saw the completion of the water main loop from Maple Street to Montvale Avenue with the subsequent elimination of two dead ends and the recurring rust problems. The East Street water main was replaced along with a section of the Cherry Avenue water main and the resultant fire flow tests show a significant increase in available water. The Board is still awaiting action by the State Legislature to allow the Metropolitan District Commission to change their water rates so that they may sell water at a rate comparable to their cost. The M.D.C. has for several years sold water at a rate below their own cost.

The road resurfacing program was severely curtailed this year because the State Highway funds directed to the Town for this work was unavailable. It is hoped that the funds will be made available next year so that the work may continue.

The Recreation Committee, whose members are appointed by the Board of Public Works, has worked diligently to improve the recreation program and facilities for the youth of the Town. Their efforts in this endeavor are greatly appreciated by the Board.

During the year, Mr. William Jordan, Mr. Emil D'Entremont and Mr. Samuel Chuisa retired from the employ of the Department. We would like to take this opportunity to express our sincere thanks to these men for their competent and faithful service over the past years.

The Board would like to express our appreciation to the many Boards and Committees, to the people of Stoneham, and to the personnel of the Department for their assistance and aid throughout the year.

Respectfully submitted,
By: John E. Finnegan, Chairman
John E. Shaughnessy
Eugene B. Rotondi, Jr.

Annual Report Of The Superintendent Of Public Works

TO THE HONORABLE BOARD OF PUBLIC WORKS
Gentlemen:

The report of the activities of the Department for the year 1972 is herewith submitted. The Public Works Department is basically service oriented dealing in water, sewer, drain, cemetery, park, tree, engineering, rubbish collection and administration. This diversefication of services readily points up the advantages of a consolidated Department which allows for the interchangeability of personnel within various divisions. A classic example of application of this system was the development of a new burial section at Lindenwood Cemetery ten years ago. The necessary fill came from construction jobs, street sweeping, road repair jobs etc., and was intermittantly graded by Public Works equipment. During the period from 1962 through 1972, 561 graves were sold in this section, bringing in a total of $59,700.00 in revenue. Another example of the degree of flexibility within the Department is the use of all divisions for snow and ice control operations during the winter months.

It was the pleasure of the Department this summer to be affiliated with the employment of young men through the Neighborhood Youth Corps. The wages of the young men were paid by the Federal Government and their work assignments and supervision was provided by the Public Works Department. It was a very worthwhile program for both the Town and the young men involved.

This year, 1972, will go into the record books as one of the wettest years in history. The amount of rain received this year was of great benefit to the water reservoirs and supplies of the State but raised havoc with the planned work program of the Department. Again, this year saw an increase in the amount of maintenance work performed on the various physical properties and systems under the control of the Department.

HIGHWAYS

The resurfacing program continued this year and the streets receiving 1½ inches of bituminous concrete were:

Arlene Avenue	526 feet
Drummond Road	857 feet
Erickson Street	1,423 feet
Paula Avenue	289 feet
Janice Lane	578 feet
Hanford Road	1,447 feet
Elaine Road	969 feet
Margaret Road	879 feet
Rose Lane	686 feet
Forest Street (section)	400 feet
Atwood Avenue	395 feet

In addition to the prior list of projects a section of William Street was resurfaced with bituminous concrete and berm curbing installed under the Chapter 90 Maintenance program. The State and the County pay two thirds of the cost of the work. The length of street resurfaced was 1,151 feet and the amount of berm installed was 1,053 feet.

An ongoing project which extends the life of the road surface is the sealing of surface cracks with emulsion and sand. There were 14 streets sealed this year. The roadway drainage systems accept the water from the pavements through structures called catchbasins. Much of the dirt, sand and silt on the surfaces is carried into the catchbasins during periods of rain. All of the catchbasins in the Town were cleaned at least once this year.

SIDEWALK CONSTRUCTION:

The work performed by the Department is as follows:

Cement concrete sidewalk installation 2 locations - 299 Lin feet
Bituminous concrete sidewalk installation 6 locations - 513 Lin. Feet
Curbing installation 5 locations - 266 Lin. feet

In addition to the above, private developers installed a total of 1,715 Lin. feet of bituminous concrete sidewalk at various locations in the Town.

SIDEWALK MAINTENANCE:

Bituminous concrete sidewalks were resurfaced at 5 different locations and the total length involved was 520 feet.

The Department also replaced sections of Portland cement concrete sidewalks at twelve different locations where damaged or decayed. There is considerable work remaining to be done in this area and it is hoped that we can apply a greater proportion of the funds to this work in the immediate future.

STREET SIGNS and BEACONS:

Under this account, the Department renews, replaces, and repairs all street signs and regulatory traffic signs. We install signs at the request of the Board of Selectmen. Again this year, the expense of vandalism has severely curtailed the improvement program which had been established.

Also under this account competitive bids were obtained for the purpose of installing pavement markings such as centerlines, crosswalks, school insignias, etc. The 1972 contract was awarded to Traffic Line Painting, being the lowest qualified bidder. During the year approximately 76,000 feet of centerline and 11,000 feet of crosswalk were painted on streets.

WATER CONSTRUCTION

A very important water loop was completed this year tying in the Maple Street line with the Montvale Avenue line. Realizing what the additional demand on this section of the system would be with the construction of a new industrial building and a new municipal skating rink on Montvale Avenue it became critically important to complete the loop. The project involved the installation of 471 feet of 12" cast iron pipe and related fittings. Another project which was of critical importance was the relay of the water lines on East Street and a portion of Cherry Avenue. A new 12" cast iron pipe was installed on East Street for a distance of 1,059 feet replacing the old 6" and 4" lines. At the same time a new 8" cast iron main was installed in Cherry Avenue for a distance of 341 feet replacing the old 4" line.

The Department instituted a trial program of reaming out older cast iron water mains in order to remove accumulated tuberculation and return the line to its original inside diameter. The water mains cleaned in this manner were on Cowdrey Street, Keene Street and West Street Extension. The results of the cleaning were very impressive with respect to hydrant flows but additional time is needed to evaluate its effective life span.

In addition to the above work water mains were installed at the following locations by private contractors at the expense of the developer:

Location	Size	Type	Length	Gate	Hydrants
Morgan Avenue	8"	C.I.C.L.	315'	1	1
Mayflower Drive	8"	C.I.C.L.	449'	1	0
Towne Crest Drive	8"	C.I.C.L.	667'	3	1
Brookbridge Road	8"	C.I.C.L.	133'	1	0
Eastern Avenue	8"	C.I.C.L.	897'	5	2
Michael Circle	8"	C.I.C.L.	263'	1	0
Montvale Ave at Rink	12"	C.I.C.L.	56'	2	0
Montvale Ave. at Rink	6"	C.I.C.L.	572	2	1
Marble St. Apartments	8"	C.I.C.L.	800'	3	2
Clearview Road	8"	C.I.C.L.	229'	0	0
Broadway	8"	C.I.C.L.	144'	1	0
			4525'	18	7

The total water distribution system now encompasses 70.19 miles of various sized water mains within the Town exclusive of the M.D.C. system. There were 12 hydrants added to the system bringing the total number of hydrants in the Town to 504.

There were 48 new water services installed during the year bringing the total number of active services to 5,189. In addition to this work 26 water services were relayed. All water services are metered and read semi-annually.

SEWER CONSTRUCTION

The following streets or portions thereof were serviced by sanitary mains:

Location	Length	Size	Type	Structures
Spring St. (By Town)	946	8"	A.C.	4
Highland Ave. (By Town)	562'	8"	A.C.	4
Morgan Avenue	329'	8"	A.C.	3
Mayflower Drive	309'	8"	A.C.	3

Town Crest Drive	575'	8"	A.C.	3
Brookbridge Road	221'	8"	A.C.	2

The number of active sewer services increased by seventy-four (74) during the year bringing the total number within the Town to 4,596. Forty-one services were installed by Department personnel and thirty-three were installed by private contractors. The applicant is obliged to pay the entire cost of the initial installation but all subsequent maintenance costs are borne by the Town.

SNOW & ICE

The total snowfall for the winter season was 72¾ inches. January was a dry month with most of the snow coming in February. The vehicular activity in the Town has increased appreciably in the last decade and is reflected in the expediency demanded of the Department in plowing and sanding operations. The snowloader, which was purchased in 1946, went through another season without a major breakdown. The life of this machine is definitely limited and will have to be replaced in the not too distant future.

ROAD MACHINERY

The Department is obliged to maintain all of its trucks, equipment, pumps, generators, pipe cleaning apparatus and stationary motors from this account. The work load has become too great for one mechanic to keep up with and we were fortunate to obtain a second mechanic for the Department through the Emergency Employment Act. This Act obliges the Federal Government to pay the wages of the people so employed until 1973..

Equipment purchased during 1972:

One----2½ Town Dump Truck trading 1961 Dump Truck
One----Tractor Mower trading 1966 Tractor Mower
One----¾ Ton 4 Wheel Drive Truck trading 1961 ¾ Town 4 Wheel Drive Truck
One----¾ Ton Utility Truck trading 1965 Utility Truck
Two----Snow Plows trading tw 1946 Plows.

DRAIN CONSTRUCTION

The Department anticipated obtaining state funding for resurfacing of streets and proceeded to install adequate drainage facilities on Broadway and Lindenwood Road. The Broadway project involved the installation of 152 feet of 12 inch corrugated metal pipe in addition to two catchbasins. The Lindenwood project consisted of one catchbasin and 12 feet of 8" inch corrugated metal pipe. The Department also extended an 8 inch corrugated metal pipe on Park Street a distance of 125 feet to intercept the flow of an old stone box culvert, which formerly flowed into the abutting private property.

PARKS

The Park Division maintains the various public parks of the Town, the Town Hall grounds, twelve triangles located on different street intersections and the grounds at three sewerage pumping stations. The work of reloaming and seeding the Pomeworth Street ball field by contract was completed to the satisfaction of the Department this year and the Park Division started the job of cutting out, filling and grading the three infields at this location. An early November snowfall prevented the completion of the project. Each one of the other playgrounds was reconditioned in the Spring and was put to extensive use during the remainder of the year. Broadway ball field came in for particularly heavy usage from the High School soccer teams, and other organized sports.

Several young men employed under the Federally funded Neighborhood Youth Corps were used to perform the following work:

Painting of A.P. Rounds playground chain link fence.
Painting of Steele playground chain link fence.
Painting of Pomeworth Street tennis court chain link fence.
Intermittent cleaning of four of the larger parks in the Town.

The individuals involved are to be complimented and their diligence and workmanship. It was a pleasure to have them with us.

The Recreation Committee has established a planned program for the renovation of existing playground equipment and the purchase of new equipment scheduled to take place over a period of years. The third phase of the program was carried out this year with the funding appropriated in the Recreation Committee budget and the labor provided by the Park Division.

TREE DIVISION

During the year one hundred and sixty seven trees were planted and

eighty five were removed. Our planting program continues with the emphasis not only on new areas but also throughout the Town, replacing diseased trees and adding trees wherever advisable. Through the planned application of sprays and the quick removal of trees with Dutch Elm disease, we presently have reasonable control over the disease. We continue to remove stumps through the use of a hired stump grinder which leaves them below grade. To date, this method has proven to be the most economical.

The gravel pit continues to serve as the area for brush disposal, necessitating the use of a bulldozer to push the debris over the banking from time to time. The Tree crew has aided in the plowing and sanding operations throughout the year, and has assisted both the Cemetery and Park Divisions in times of need.

CEMETERY DIVISION

During the year there were eighty-seven (87) burials and a total of forty-nine (49) graves were sold. The new section which was loaned and graded last year was seeded this year and should be available for sale in the Spring of 1973. As before the cemetery truck and personnel have proven invaluable during the winter storms and have assisted the highway crew during periods of rain by clearing the tops of catchbasins in sections of the town.

For a list of the receipts of the year, your attention is respectfully directed to the report of the Town Accountant.

RUBBISH COLLECTION

The weekly pickup of all household waste is performed by the Department personnel and the collected material is disposed of at the M. DeMatteo dump in Saugus. The problem of disposal remains with us. The proposal by the City of Malden to have an incinerator constructed in its city by private enterprise has failed to materialize. We are currently in discussion with Thesco, Inc. who propose to construct an incinerator in Saugus and sell steam to the General Electric plant in Lynn. The project is still in the talking stage at this point and could not be made operational for at least two and one half years.

The Department also runs a clean-up collection in the Fall and Spring which gives the residents a chance to eliminate furniture and other household material which has no useful life. Metal goods collected during the two cleanup periods are sold as junk with the proceeds from the sale going to the Town's treasury. In 1972 the proceeds amounted to $1,294.77.

ENGINEERING

The Engineering Division, under the control of the Town Engineer, is responsible for the planning and design of the maintenance and enlargement of the Town water, sewer and drain systems in addition to the construction and maintenance design of the Town roads. Easement surveys were made for sewer and drainage projects and plans were drawn up for recording at the Registry of Deeds. The Division also provides all cost estimates on such matters as street construction for acceptance, sewer and water main extension, sidewalk construction and numerous other items requiring estimates during the year. The above work is supplemented by such functions as cemetery lot layout, establishment of street lines, inspection of houses before blasting various traffic surveys and the makeup of specifications for all jobs and equipment put out for bid by the Department.

This Division also extends a courtesy to the Planning Board by reviewing the engineering street layouts of subdivision plans submitted to that Board and by recommending the monetary sum that is usedby the Planning Board to determine the necessary bond. All street construction work done by private contractors in subdivisions is also supervised by the Engineering Division, and it is on the satisfactory completion of this work that bonds are released.

ADMINISTRATIVE STAFF

The administrative staff functions as the nerve center of the entire organization by routing all business into the correct channels. As mentioned previously, the business concerns the functions of water, sewer, highway, engineering, park, cemetery and tree divisions in a Town containing 22,000 people. A sizeable portion of the work consists of answering phone calls, preparing contracts, computing weekly payrolls and bill warrants, computing and mailing of approximately 11,000 water bills annually, purchasing of necessary materials, maintaining all records, etc. The staff performs well within the boundaries of its work.

The Recreation Committee, in concert with the School Committee, was instrumental in gaining passage at the 1972 Annual Town Meeting of an article to install floodlights on the softball field at the Junior High School. This action will allow the men's softball league to play games after dark and will also allow the school athletic teams to practice or play for longer periods. The job was completed by the lowest qualified bidder.

I would like to thank the Recreation Committee for formulating and carrying out through their Directors, a very diversified program which was received enthusiastically by the children who participated. I would also like

to thank the School Committee and Mr. Daniel Hogan, Superintendent, for their cooperation in allowing the use of the school facilities for such purposes as the Saturday winter gym program, ice skating areas, miscellaneous recreation programs, etc. Without their cooperation many of the activities would have been severely curtailed.

During the year Mr. William Jordan, Mr. Emil D'Entremont, and Mr. Samuel Chuisa retired from the Department. Their service represented over sixty years collectively and it is impossible to immediately replace the experience those years represent. We would like to take this opportunity to express our sincere appreciation to them for their competent and faithful service over the past years.

I would also like to thank all those who have aided and assisted us throughout the year, especially the members of the Board of Public Works, and the Town Department without whose cooperation the work would have been more severe and certainly less productive.

My personal thanks are extended to the personnel of the Public Works Department for their willingness and support in all functions.

Respectfully submitted,
William J. Reid, Jr.
Superintendent

Annual Report Of The Personnel Board

To the Honorable Board of Selectmen and the Citizens of the Town of Stoneham:

The Annual Report of the Personnel Board is herewith submitted:

Under Article XI of the Town By-Laws it is the duty of the Personnel Board to review all Salary and Wage rates and Classifications and recommend to the Town any action it deems necessary to maintain a fair and equitable plan. Under the rules of procedure set by the Board, letters were written to all department heads and interested committee chairman inviting them to appear before the Board to discuss any proposed changes or adjustments in the Wage, Salary and Classification Plan.

During the year, due to other commitments, Messrs R. Paul Rotonti and Peter D. Prevett resigned. The Board of Selectmen appointed Mr. George A. Gammon and Mr. Norman S. Silverman to fill their places.

At the annual organizational meeting held in May Mr. Robert F. O'Neil was elected chairman and Mr. Robert P. Chase was reelected Secretary.

Annual Report Of The Civil Defense Dept.

To the Honorable Board of Selectmen:

Gentlemen:

I hereby respectfully submit this report of my office, and its activities for 1972.

The program outlined for the federal fiscal year 1973 has been accepted and approved. Approval of this program places Stoneham in an eligibility status for matching funds for projects.

Additionally this approval allows Stoneham to partake in the Surplus Property and also the Excess Property programs of the Federal Government. During 1972 the Town received from the surplus property program, $18725.00 worth of property, at no cost except for a small freight charge.

The department during the year has participated in the following programs and/or civil defense activities:

a) active participation in the Governors Highway Safety Campaign during the three major holidays.

b) active participation in the monthly Sector Directors Meetings.

c) active participation in the various training programs and attendance at various seminars in order that Stoneham would be kept abreast of current changes or modifications in policies concerning civil defense.

The Auxiliary Police Department under the command of Auxiliary Police Chief Milto E. Roberts participated in the Governors Highway Safety programs during the major holidays and at all major civic events as well as assisting the regular police in routine police work, volunteering over 400 man hours.

The Auxiliary Fire Department underwent a change of command during the year, it is now commanded by Charles Beckwith, retired lieutenant of the Stoneham Fire Dept. I am confident that with Mr. Beckwith in charge of the Auxiliary Fire Department can only improve, for he brings with him many years of fire fighting experience that will be invaluable in the training of the members of this department.

The members of this department responded to all major fire and other emergency situations during the year, volunteering with their training sessions better than 300 man hours. This then is a summary of the activities of my department for the year 1972.

Respectfully submitted,
Bennie Pasquariello - Director

Annual Report Of The Collective Bargaining Agents

To the Honorable Board of Selectmen and the Citizens of the Town of Stoneham:

The Annual Report of the Collective Bargaining Agents is herewith submitted:

In accordance with the General Laws of the Commonwealth of Massachusetts the Agents held bargaining sessions with the Negotiating Committees of the Police Officers Union, the Firefighters Union, the Public Works Employees Association and the Safety Traffic Directors Association. Numerous meetings were held to arrive at mutually satisfactory eighteen-month contracts for c/y 1973 and the first six months of 1974.

During the year, due to other commitments, Messrs. R. Paul Rotondi and Peter D. Prevett resigned. The Board of Selectmen appointed Mr. George A. Gammon and E. Michael Marrocco to fill their places.

Annual Report Of The Board Of Selectmen

The Board of Selectmen organized with new member Rudolph DiLuzio being elected to the Board for three years. To replace Edmund Moreira who retired after 10 years service to the Town on the Board of Selectmen. Albert Symes, Chairman; Mrs. June McTaggart, Mrs. Alice Del Rossi, and James McDonough Jr., other members.

During the year it became increasingly evident that the Selectmen need assistance in the day to day operation of the business of the Town. More and more monies as well as projects are available to the Towns in the Commonwealth, however the Town does not have anyone to persue these matters.

Last year the Selectmen participated in the Federal-State Emergency Employment Act, this year under additional phases of this act we selected twelve more employees. Three applicants were assigned to the Board of Public Works, two were assigned to the School Department, one as a Librarian and the other as clerk, one each was assigned to the following: Planning, as Urban Planner; Building as a code enforcement officer; Police, as a clerk; Town Hall, as a clerk, Town Counsel as Legal Liaison; Atlantis, as a drug counsellor; and Youth Commission as a Youth Coordinator.

The Town also had thirty-one young people assigned through the Auxiliary Manpower Planning Board under the Neighborhood Youth Corp Program. Mr. Albert Symes and Mrs. Smith, clerk to the Board of Selectmen, have attended meetings regarding this regional program and hope to be able to employ at least the same number this Summer. Further development in this program will allow for the training of older groups to develop skills in a variety of fields.

The Selectmen reappointed all the personnel to the positions in the various departments under their jurisdiction. Appointments were also made to many committees and boards to fill vacancies jointly with existing members of their respective Boards. Mrs. Tague was appointed a registrar of voters to fill a vacancy in the Registrar of Voters.

The continuing problems of North Main Street was discussed repeatedly during the year including the new traffic controls at North Street and Main Street. Not only was the traffic situation a matter of these discussions, but the security of the Redstone Shopping complex including extra police patrol and better lighting in the rear parking area.

The problems concerning dogs which has been discussed for several

years was again a matter of concern. The warrant for the 1973 Annual Town Meeting will ask the fine for violations of the dog leash law be changed so that the Town will collect these fines directly rather than going through the District Court. The warrant will also consider establishing a dog pound.

Through the efforts of the Town Counsel and three Town Meetings the Board agreed to have Michi City Publishing Company codify all the by-laws of the Town so that they will be all in one book with easy references.

In view of the fact that the labor discussions with the Town employees have become increasingly complex. The Board with the cooperation of the Town Counsel hiring a labor consultant to assist the Personnel Board with their deliberations.

There are a multitude of smaller issues that consumed many hours some of which follows: funds for Hot Lunch Program for the elderly were formally applied and turned over to the School Department to administer, approved and forwarded to the state a plan for redistricting the Town into six precincts, approved location of several Pocket Parks as presented by the Garden Club, approved articles for the annual warrant for private ambulance service for the Town, Automatic voting machines and additional amendments to remove ambiguity from the sign by-law.

During the year no additional patrolmen were appointed to the Police Department due to the court moratorium on the hiring of patrolmen. There are four vacancies in the roster and the Board is considering filling these with provisional appointments with Civil Service certification. We appointed one patrolman on a transfer from Somerville.

Captain John Judge retired from the Fire Department after 19 years service to the town, his position has been filled on a temporary basis awaiting a list from the Civil Service. The position of Firefighter Francis Wells who retired after 26 years service has also been filled on a temporary basis.

No appointments were made to the School Traffic Directors during the year. However, four additional spares were appointed to fill in Traffic Directors who were sick. This program has been highly successful, and working in cooperation with the Safety Committee additional directors are expected to be appointed in 1973.

The major problems again this year as it was the two previous years is the need of an administrative assistant for the Board of Selectmen. An article has been inserted in the Town Warrant again this year to approve the position of Executive Secretary. The State Department of Public Works have given assistance and guidance in attempting to solve the traffic problem on North Main Street near the Redstone Shopping Center, and with cooperation from the management of this complex a solution will be had by

the Spring of 1973. The State will continue to study other traffic problems in the town with the hope of improving various trouble areas. The Board of Selectmen will also endeavor to find money available either from the State or Federal Government to replace the sidewalks in the center of the town.

TOWN ACCOUNTANT

ARTICLE 6.

To see if the Town will vote to amend Article XI of the By-Laws of the Town of Stoneham, entitled "Wage, Salary and Classification Plan" by striking out, under Annual Rate, the item "Sealer of weights and measures, $1700.00" and inserting in place thereof the item "Sealer of weights and measures, $2100.00" or do anything in relation thereto.

GEORGE M. RICH
SEALER OF WEIGHTS & MEASURES

ARTICLE 7.

To see if the Town will vote to amend Article XI of the By-Laws of the Town of Stoneham entitled "Wage, Salary and Classification Plan" by adding to Section 12, as follows: Section 12A, paragraphs (1), (2), (3), (4), (5), (6) and (7).

Section 12A. Sick Leave.

(1) Every full time employee not covered by Collective Bargaining, who has completed his probationary period shall be granted sick leave with pay for absence caused by illness, or by injury, or exposure to contagious disease. (non-occupational). Illness does not include pregnancy or maternity but may include complications therefrom.

(2) Sick leave shall accrue at the rate of $1\frac{1}{4}$ days for each month of actual service not to exceed (15) working days in any calendar year. Unused sick leave may be accumulated from year to year. On termination of employment, unused sick leave shall lapse and shall not be compensated.

(3) An employee who is sick has the responsibility to notify his immediate superior of his intended absence as soon as possible. The Town may request a doctor's certificate or other satisfactory evidence of illness for absences in excess of three (3) working days, or before or after scheduled days off, vacations or holidays or after a pattern of absences has developed. In any of the above situations the individual claiming illness has the burden of establishing eligibility for sick leave.

(4) The town shall provide each employee with an annual report of sick leave credit.

(5) Each employee hired on or before December 31, 1971 will be credited with three (3) sick days for each year of service. Each employee hired on or after January 1, 1972 but not later than December 31, 1972 will be credited with one year of service for the purpose of applying the preceeding sentence.

Each employee hired on or after January 1, 1973 will accrue sick leave under paragraph 1.

(6) Extension of paid sick leave in excess of accumulated credit can be made only upon recommendation of the Department head, or Supervisory Authority, after review by the Personnel Board. In determining whether sick leave extension will be granted, the prior attendance performance of the employee and unused vacation leave are significant factors for consideration.

(7) These sick leave rules shall supersede any pre-existing policy, practice, rule, execution order or vote under which discretionary sick leave was granted at the discretion of the Department head.

ARTICLE 8.

To see if the Town will vote to amend Article XI of the By-Laws of the Town of Stoneham entitled "Wage, Salary and Classification Plan" by adding to Section 12, as follows: Section 12B, paragraphs (1), (2) and (3).

Section 12B. Bereavement:

(1) In the event of a death in the immediate family of a full-time employee, he shall be paid up to three days pay for otherwise working time within the period from the date of the death through the day after the Funeral Service.

(2) Immediate family shall include only the employee's mother, father, brother, sister, spouse or child. A full-time employee will be paid up to one day's pay for otherwise scheduled working time for the purpose of attending the funeral of one of his in-laws, aunt, uncle or grandparents.

(3) In-laws is interpreted to mean the mother in-law, father in-law, sister in-law and brother in-law of an employee but is not intended to include the brothers in-law or sisters in-law of the employees wife or husband.

PERSONNEL BOARD

ARTICLE 9.

To see if the Town will vote to amend Article XI of the By-Laws of the Town of Stoneham entitled "Wage, Salary and Classification Plan" by deleting in its entirety, subsection (c), under Section 5, and inserting in place thereof the following:

(c) Increment shall become effective on the anniversary date following employment.

ARTICLE 10.

To see if the Town will vote to amend Article XI of the By-Laws of the Town of Stoneham entitled "Wage, Salary and Classification Plan" by striking out in its entirety paragraph (3), under Section 13, subsection (E), and inserting in place thereof the following:

(3) Director of Public Health.

Definition: Administrative, supervisory and inspection work in the Town Public Health program; related to work as required.

Distinguishing Characteristics: Works under the general direction of the Board of Health. Performs varied and responsible duties requiring considerable judgment in applying state laws and local regulations to frequently changing conditions and problems.

Makes frequent contact with State and Local health officials, trained medical personnel; operators and managers of various plants and establishments handling food products; and the general public.

Exercises supervision over a small group of departmental personnel. Considerable effort required to detect and correct errors which could be costly in terms of inadequate standards of public health and sanitation. Some physical effort demanded while performing duties under conditions involving minor disagreeable factors or exposure to communicable diseases.

Examples of Work: Administers and coordinates public health programs and services in accordance with established policies.

Enforces state health laws and rules and regulations of the local Board of Health; inspects dairy farms and riding stables, stores and pasteurization plants; makes bacteriological analyses of milk samples taken in the field and eating utensils. Processes applications, issues certain permits and licenses, handles complaints and investigates alleged nuisances; inspects new sewage disposal systems.

Inspects child care centers, nursing homes, recreation areas and food handling establishments; swimming pools, public and private school, hospitals, theaters and condemns all buildings determined unfit for human habitation. Desirable Qualifications: High school graduation, sup-

plemented by formal training in public health administration; five years' experience in conducting inspections in the field of food service operations; qualifications as licensed sanitarian or certified Health Officer or any equivalent combination of education and experience.

Thorough knowledge of the laws, rules and regulations pertaining to public health sanitation and of the approved methods and equipment used in handling food products. Ability to enforce and interpret regulations firmly, tactfully and impartially.

To see if the Town will vote to amend Article XI of the By-Laws of the Town of Stoneham, entitled "Wage, Salary and Classification Plan", by adding to Section 13, as follows: subsection (L).

(L). Assistant Assessor. General Statement of Duties: Under general direction of the Board of Assessors, to gather necessary information (i.e. measuring, listing, etc.) to appraise Real and Personal Property for tax purposes; to attend all meetings of the Board and to perform related work as required. Qualifications: Must be a High School graduate and preferably a College graduate. Shall hold one or more of the following professional designations: Member of Appraisal Institute (MAI), Society of Real Estate Appraisers (SRA), Certified Assessing Examiner (CAE), Certified Massachusetts Assessor (CMA), or shall have qualified as an expert Real Estate Witness before the Superior Court or the Appelate Court of the Commonwealth of Massachusetts. He may qualify for the position by virtue of past training and experience of no less than five years in Assessing or Appraising work. Should have a basic knowledge of building construction, should be familiar with State laws regarding assessing, should have the ability to read maps, plans and subdivisions, and to estimate land values for tax purposes. Should have some previous experience in office management and the keeping of records. Must be of good moral character, with references as to integrity and honesty. Must be familiar with the three approaches to value for ad valorem purposes. Some basic knowledge of computer operations would be desirable.

PERSONNEL BOARD

ARTICLE 12.

To see if the Town will vote to amend Article XI of the By-Laws of the Town of Stoneham, entitled "Wage, Salary and Classification Plan", by adding to Section 13 as follows: subsection (m).

(m) Executive Secretary.

Qualifications: Applicant must have 1) at least five years experience in public or municipal administration including the minimum of three years full time experience as a municipal administrator, and 2) must possess a Bachelor's Degree from an accredited college or university, preferably in Public Administration and or Business Administration or an equivalent combination of education and experience.

Appointment: The Executive Secretary shall be appointed by a four-fifths vote of the Board of Selectmen for a term of three years or until his resignation or removal. Such removal shall require a four-fifths vote of the Board of Selectmen and only after such removal has been initiated by written charges preferred against him by the appointing authority and he has been given an open public hearing on such charges if he requests such hearing. Within six months after his appointment he shall become a resident of the Town of Stoneham if said appointee is a non-resident and shall hold no other office elected or appointed, except as hereinafter provided.

Basic Function: Serve as the Chief Administrative Officer for the Board of Selectmen, developing and coordinating an integrated system of staff services; and plan, direct and coordinate any activities of the Town departments which are under the general supervision of the Selectmen and the activities of any other town department, board committee or commission which may request his services and who can demonstrate a need for administrative assistance. He shall also serve as the personnel co-ordinator for the Personnel Board.

Duties and Responsibilities: 1) Subject to the direct supervision and authority of the Board of Selectmen or a town department, board committee, of commission which requests his services and receives approval of such request, he shall regularly review operation and activities of all such officers, boards, commissions and committees and shall submit reports and recommendations concerning the administration of such officers, boards, commissions and committees to the official or officials having jurisdiction over such town departments.

2) He shall keep the Selectmen fully informed as to the needs of the Town and shall recommend to the Selectmen for adoption such measures requiring action by them or by the Town as he may deem necessary.

3) He shall guide and give managerial and technical direction to all officials and offices under the jurisdiction of the Board of Selectmen concerning the operation of such office, including but not limited to all personnel matters. He may give such assistance to any other board, committee, commission or department which requests the same. He shall provide

whatever assistance in the Collective Bargaining negotiations as the Collective Bargaining Committee may direct with the approval of the Board of Selectmen.

4) He shall, under the authority delegated by the Board of Selectmen, represent the Town at hearings, suits, inter-departmental meetings, and other proceedings deemed essential by the Board of Selectmen. He shall meet with the Federal and State agencies relative to programs and funds available to the Town and shall determine and perform whatever is necessary to qualify the town for said Federal and or State funds.

5) He shall have submitted to him all warrants for the payment of Town Funds, prepared by the Town Accountant in accordance with the provisions of Section fifty-six of Chapter 41 of the General Laws. He shall review such warrant and if any claim seems to him to be of doubtful validity, excessive in amount, or otherwise contrary to the interests of the Town, he shall refer it to the Board of Selectmen for an investigation of the facts and a determination as to what payment, if any, should be made. Pending such determination by the Selectmen, payment shall be withheld.

6) He shall act as coordinator between Town Departments, Boards, Committees or Commissions, and arrange meetings between the heads of such units to deal with common problems and to allow an interchange of ideas and information. He shall report to the Board of Selectmen the results of these meetings and his recommendations based therein.

7) He shall provide such assistance to the Finance and Advisory Board as it may direct relative to the Town Budget and shall be the budget analyst for said Board.

8) He shall, with the approval of the Selectmen, provide such technical assistance and supervision as the Planning Board may request, relative to the administration and enforcement of the subdivision control law including but not limited to surveillance of subdivisions under construction for compliance with contractual and legal requirements.

9) He shall provide advice and perform functions in connection with matters which are the subject of citizen complaints and keep the community informed on municipal affairs and encourage communications through his office between the citizens and municipal officers. In effect, the Executive Secretary shall act as Ombudsman.

10) He shall be an ex-officio member of all Town Committees.

11) As the agent for the Board of Selectmen, he shall have the jurisdiction over, and be responsible for, planning construction, recon-

struction, alteration, repair, maintenance, improvement and use of all buildings under the jurisdiction of the Board of Selectmen.

12) He shall have the responsibility for the preparation and submission to the Selectmen of the operating budgets of all departments subject to the control of the Board of Selectmen and the preparation of the Town Report and such other reports as said Board of Selectmen requires.

13) He shall become thoroughly familiar with respect to the responsibilities and activities of the various departments of the Town and advise the Selectmen on ways of achieving maximum efficiency and coordination of the activities of those departments.

14) He shall not establish policy but shall suggest and recommend policy and in so doing shall collect and analyze data in developing drafts of policy recommendations.

15) He shall act as Workman's Compensation Agent for the Town and shall attend all hearings before the Industrial Accident Board in which the Town has an interest.

16) He shall coordinate the purchasing of all supplies, materials and equipment for those offices and departments under the control of the Selectmen and any other departments, boards and committees of the Town who request these services. In so doing, he shall draw up any specifications relative to bids concerning such purchases and shall make recommendations concerning acceptance of such bids to the awarding authority.

17) He shall refrain from participation in the election of the members of his employing administrative body or State Representatives or State Senators who represent the district of which Stoneham is part thereof and shall also refrain from all partisan political activities which would impair his performance as a professional administrator.

18) He shall be the Secretary to the Board of Selectmen and in such capacity shall attend all meetings of the Board.

19) He shall perform such other duties consistent with his office as may be required by him by vote of the Selectmen or by vote of the Town Meeting or any which by implication are necessary to efficiently perform those which are heretofore enumerated.

20) All of the aforementioned activities shall conform with the General Laws of the Commonwealth and the By-Laws of the Town of Stoneham. If any provision of this classification is held invalid, the remaining provisions shall not be effected thereby. If the application of the classification to any

person or circumstances is held invalid, the application of this classification to any other persons and circumstances shall not be effected thereby.

ARTICLE 14.

To see if the TOwn will vote to amend Article XI of the By-Laws of the Town of Stoneham, entitled "Wage, Salary and Classification Plan", by adding to Section 13, as follows: subsection (n) paragraphs (1), (2), (3), (4), (5), (6) and (7).

(n) Unicorn Arena.

(1) Arena Manager. Job Controls: Works under the general supervision of the Unicorn Committee who are responsible for the overall operation of the Arena. Recommendation and decisions of a major nature are reviewed for soundness and feasibility. Overall work is reviewed in terms of the effectiveness of the operation and the quality of service rendered. The arena, although municipally owned, is operated as though it were privately owned and must make money to absorb the costs of operation, bond amortization and interest costs only. Guides consist of State statutes, policies of the Committee, and operations manuals for equipment.

Major Duties: Schedules all events into the Arena. This function requires a great deal of contact with a wide variety of groups, most requiring ice time, and many who require space per se, i.e., wrestling shows, antique shows, scout exhibits, etc. In both cases there is increasing demand for scheduled time in the Arena. The scheduling requires exercising a high degree of diplomacy as well as a good knowledge of linear scheduling techniques.

Responsible for the accuracy of all receipts, including ticket sales, which go into the Town General Fund. Responsible for preparing annual budget which will be reviewed and accepted by Unicorn Committee. Budget will then be presented by Unicorn Committee to Finance Board for approval and voted by Town Meeting. Maintain constant liaison with Unicorn Committee. Supervise the work of all arena employees which in season reaches 15-20 in a number of classifications.

Supervise and direct maintenance requirements and custodial work. Must assure cleanliness of Arena at all times. Must assure General Upkeep of all facilities, property, buildings, equipment and Real Estate placed under his charge.

Assures compliance with all safety regulations both for employees and the General Public and obtains all required licenses and permits. Maintains liaison with other Skating Arena operations in the New England Area and maintains contact in the field of arena operations to insure that his operations are up-to-date and that the arena provides the optimum in services. Responsible for recommendations regarding purchase of major equipment for the Arena operation and authorizes expenditures, within his budget limits, of other supplies and equipment.

Qualification Requirements: Graduation from college with Major, preferably in Business Administration, Physical Education or Recreation with five years responsible supervisory experience. Experience in sports arena management is desirable. Actual management experience may be substituted on a calendar years experience for each year of college provided it is in excess of five years responsible supervisory experience. At least two years of before mentioned experience should be in some form of public relations. Manager must be able to deal effectively with public.

2) Assistant Arena Manager. Job Controls: Works under the general supervision of the Arena Manager who periodically checks work for effectiveness and adherence to operating and administrative policies. Manager assigns priorities and advises of administrative and technical changes. Must demonstrate high degree of tact and diplomacy to maintain effective relationship with fellow employees and with the public.

Major Duties: Assists, and in his absence, acts for the Arena Manager in his entire scope of responsibility which includes efficient and profitable operation of the Arena, maintaining and repairing equipment, making work assignments and otherwise supervising subordinates, etc.

Perform all types of general maintenance in and around the skating arena which includes but not necessarily limited to maintenance of refrigeration and other equipment, painting and carpentry, etc.

Operates Zamboni ice resurfacing machine and makes ice as required. Performs other related work as assigned and or required.

Qualification Requirements: High School graduate plus at least (2) years of formal education beyond High School, plus a minimum of four (4) years of experience in general maintenance and repair of equipment and facilities, not less than one year of which should have been in a supervisory of administrative capacity. Additional years of experience may be substituted for two (2) years of formal education beyond High School. Must be able to deal effectively with public.

(3) Arena Assistant. Job Controls: Works under the general supervision of the Arena Manager and the Assistant Arena Manager who may periodically check work for effectiveness and adherence to operating and administration policies. Supervisor(s) may assign priorities and advise on administrative and technical changes. Must demonstrate high degree of tact and diplomacy to maintain effective relationship with fellow employees and with public.

Major Duties: Assists and in their absence acts for Arena Manager and or the Assistant Manager in their entire scope of responsibilities which includes efficient and profitable operations of the arena. Establishes ice time scheduling and programs (overall policies for which have been determined by Arena Manager). Performs investigations, conducts surveys, and writes reports based on research required by the Manager or the Committee. Performs minor repairs and maintenance i.e. painting, general cleaning duties etc. when required. May assign work to and supervise employees. Operates Zamboni Ice Resurfacing Machine and makes ice when required. Performs other related duties as assigned and required.

(4) Clerk - Bookkeeper. Job Controls: Works under the general supervision of Arena Manager and Golf Course Superintendent who furnish oral and written instructions. Work is performed on own initiative with "spot-check" review for accuracy, completeness, and compliance with procedures and instructions.

Major Duties: May perform one or more, in any combination, of the following duties:

Performs a wide variety of clerical, stenographic, recording, bookkeeping, accounting, financial and collection operations requiring extreme accuracy. Collects and compiles data for reports, meetings, memoranda and other material. Prepares and maintains required financial records of the Town. Assists all departments by providing them with necessary notices, records and information in compliance with laws, rules and requlations. Checks, classifies, bills and posts to various accounts and

records by machine or manually. Composes and types correspondence. Takes telephone calls and meets the public providing information from assigned records.

STONEHAM PLANNING BOARD

ARTICLE 26

To see if the Town will vote to amend the Town By-Laws by deleting Section 21A of Article XII as added by Article 3 of the warrant for Adjourned Special Town Meeting of June 20, 1966 and inserting in lieu thereof the following to be known as Article XII, Section 21A:

Section 21A

A.) Every dog owned or kept in this Town shall at all times while within the Town be effectively restrained by some person by means of a leash, except when such dog is on the premises of the owner or keeper or another person with the consent of such person, or is within the Town Conservation Land and accompanied by and under the effective control of some person. The owner or keeper of any such dog that is not restrained shall be punishable by a fine of not more than Ten Dollars ($10.00) for each offense.

B.) It shall be the duty of the Dog Officer to apprehend any dog not restrained as required by Section A of this Article, and to confine or cause to be confined said dog as provided herein. Any unlicensed dog so apprehended shall be confined and otherwise dealt with by the Dog Officer as required by law. Any dog so apprehended which is licensed and owned or kept in this Town shall be confined until the earlier of its being reclaimed by said owner or keeper as provided herein, or until the tenth day following the day on which such dog is apprehended. If such licensed dog is not reclaimed as provided herein, within said ten-day period, the Dog Officer shall take one of the alternative courses or action which Section 151 A of Chapter 140 of the General Laws, or any act in replacement thereof or amendment thereto, requires to be taken with respect to unlicensed dogs not licensed, collared or harnessed and tagged within the ten-day period provided therein.

C. Promptly following the apprehension and confinement by the Dog Officer of any such dog, licensed, said officer shall mail to the licensed owner thereof, a notice of such apprehension and confinement, which notice shall include a statement of the last date on which said dog may be

reclaimed as provided therein. The Dog Officer shall also promptly inform the Stoneham Police Department of such apprehension and confinement and of the description of such dog. Licensed dogs confined by the Dog Officer pursuant to this article shall be confined in a place suitable for the detention and care of dogs and kept in a sanitary condition; or they may be placed in the care of the holder of a kennel license or of a charitable corporation incorporated exclusively for the purpose of protecting animals from cruelty, neglect or abuse.

D. The owner or keeper of any licensed dog confined as provided for in this Article may reclaim such dog upon payment of the costs and charges incurred by the Town for such apprehension and confinement and care of such dog, said charges to be $5.00 for the apprehension of such dog, plus care charges for said dog of $2.00 for each full or partial day of confinement in a pound owned or leased by, or under the control of the Town or the Dog Officer. If the dog is confined in a place other than a pound owned or leased by or under the control of the Town or the Dog Officer, the care charges to be paid hereunder shall be the actual charges incurred by the Town or the Dog Officer for such confinement. No licensed dog confined as provided in the Article may be reclaimed until the owner or keeper thereof shall have paid all such costs to the Dog Officer. The Dog Officer shall pay over to the Town Treasurer all sums paid to him, said sums to be applied to the cost of enforcing this Article, or do anything in relation thereto.

ARTICLE 31

To see if the town will vote to amend the Zoning By-law by adopting a new Article III wherein a moratorium is established on the issuance of certain building permits in accordance with the following provisions and purpose:

Section I .A Moratorium on Apartment Construction

There shall be declared in the Town of Stoneham a moratorium on the issuance of permits for the construction of apartment houses. Said moratorium shall be in effect until June 30, 1975.

Section II Purpose of Moratorium

The purpose of this moratorium is to provide the town with time to plan and provide for the construction of subsidized low to moderate income housing (as defined in Chapter 774 Acts of 1969 of the General Court) on the most appropriate land in Town, including that already zoned for apartment use, as the result of pressure upon the town to provide such housing in the form of apartments, on land zoned for Residence A use.

Section III Moratorium Housing Commission

This ordinance hereby authorizes the creation of a Moratorium Housing Commission for the duration of the moratorium with one member appointed from the Board of Selectmen, Planning Board, Board of Public WOrks, School Committee, Board of Assessors, Board of Health; two members from the Stoneham Housing Authority, and two members-at-large appointed by the moderator.

The Commission shall make recommendations to the town and prepare necessary warrant articles for action by the town at the next annual town meeting after the adoption of this article. Thereby the town may meet a minimum obligation to provide subsidized low-to-moderate income housing consistent with the intent of Chapter 774, Acts of 1969, in a manner which

promotes the health, safety, convenience, morals and welfare of its inhabitants.

PURPOSE

Section 100

STATEMENT OF PURPOSE

This By-Law is created for the purpose of promoting the health, safety, convenience, morals and welfare of the inhabitants of the Town of Stoneham, as provided by Chapter 40A, of the General Laws of the Commonwealth of Massachusetts, by regulating and restricting the height, number of stories, the size of buildings and structures, the size and width of lots, the percentage of lots that may be occupied, the size of yards, the density of population, and the location and use of buildings, structures, and land for trade, industry, residence and other purposes, thereby:

100.1 encouraging the most appropriate use of land,

100.2 preventing overcrowding of land,

100.3 conserving the value of land and buildings,
100.4 lessening congestion of traffic,
100.5 preventing undue concentration of population,
100.6 providing adequate light and air,
100.7 reducing the hazards from fire and other danger,
100.8 assisting in the economical provision of transportation, water, sewerage, schools, parks and other public facilities, and
100.9 preserving and increasing the amenities of the town.

Section 110

INTERPRETATION

In their interpretation and application the provisions of this By-Law shall be held to be the minimum requirements adopted for the promotion of the above purposes.

Section 120

APPLICATION OF REGULATIONS

This By-Law shall not be deemed to affect in any matter whatsoever any easements, covenants or other agreements between parties; provided, however, that where this By-Law imposes a greater restriction upon the use of buildings or land, or upon the erection, construction, enlargement of buildings, than are imposed by other By-Laws, rules, regulations, certificates or other authorizations, or by easements, or covenants, or agreements, the provisions of this By-Law shall prevail. Except as hereinafter provided, the following general regulations shall apply:

APPLICABILITY TO LAND AND BUILDINGS

No building shall be erected, moved, altered, rebuilt, or enlarged, nor shall any land or building be used, designed or arranged to be used for any purpose or in any manner except in conformity with this By-Law and particularly with the District Use Regulations for the district in which such building or land is located.

122

NUMBER OF BUILDINGS ON A LOT

Every building hereafter erected shall be located on a lot as defined herein. There shall be not more than one main building and its accessory buildings on one lot, except for nonresidential buildings or apartments in districts where such uses are permitted, and in the latter instance only with the permission of the Planning Board, in accordance with provisions of Chpt. 41, Sec. 81Q, G.L.

123

SEPARATE YARDS

No yard or other open space provided about any building for the purpose of complying with the provisions of these regulations shall be included as any part of the yard or open space for any other building; no yard or any other open space on one lot shall be considered as a yard or open space for a building on any other lot, except for the use of open space for parking, as provided for in Sub-section 516.

124

DIVIDING A LOT

Should a lot hereafter be formed from the part of a lot already occupied by a building, such separation shall be effected in such manner as not to impair conformity with any of the requirements of this By-Law with respect to the existing building and, all yards and other required spaces in connection therewith, and no permit shall be issued for the erection of a building on the new lot thus created unless it complies with all the provisions of this By-Law.

ARTICLE 2

ESTABLISHMENT OF DISTRICTS

Section 210

CLASSES OF DISTRICTS

The Town of Stoneham is hereby divided into the following classes of districts:

1. Residence "A" Districts
2. Residence "A1" Districts
3. One Family Districts
4. Residence "B" Districts
5. Retail Business Districts
6. General Business Districts
7. Industrial Districts
8. Heavy Industrial Districts
9. Limited Business District,

provided that the ninth class of district, a Limited Business District, is established by the vote of the town on Article 23 of the warrant for the annual town meeting of 1973, or any subsequent special town meeting, and subsequent thereto, approved by the Attorney General, or constructively approved, in accordance with provisions of G.L., Chapter 40, Section 32.

Section 220

ZONING MAP

These districts are defined and bounded as shown on the "Zoning Map of the Town of Stoneham, Massachusetts" dated March 1967, and filed in the office

of the Town Clerk, which, with its amendments enacted from time to time, and notations, is hereby made a part of this By-law.

For purposes of codification, from the effective date of approval of this revised Zoning By-Law of the Town of Stoneham by the Attorney General, in accordance with provisions of General Laws, Chapter 40, Section 32, as amended, all approved changes in boundaries of districts shall be numbered by decimal, serially, starting with number 220.001, and so arranged in the order of the time of approval of said changes by the Town Meeting.

Section 230

DISTRICT BOUNDARIES

231

BOUNDARIES DEFINED

The boundaries of the district are the side lines of streets, property or lot lines or other lines shown on map accompanying this By-Law.

232

BOUNDARIES FIXED BY DISTANCE

Where boundaries are indicated as property or lot lines and the exact measurements are not defined, the true location shall be the boundary lines. Where boundary lines are fixed by distance from street, property, or lot lines, such measurements shall control.

233

UNCERTAINTIES AND DETERMINATION

Where any uncertainty exists as to exact location of boundary lines, the location shall be determined by the Inspector of Buildings provided, however, that any persons affected by this decision may appeal to the Board of Appeal in the manner provided in Article 8, Section 805.

ARTICLE 3

DISTRICT USE REGULATIONS

Section 300

DISTRICT USE

In addition to all uses permitted by Article 3 herein, provision is made in this By-law for non-conforming use by Article 7, and for appeal, exceptions, conditional and temporary permit under Article 8 having to do with Administration.

The word "use" as used herein is defined in Article 10.

Special or limited conditions on use are specified within the terms of this section by sub-sections 301 et seq.

301

ACCESSORY USES - GENERAL

301.1 Accessory uses shall be on the same lot with the building of the owner or occupant, except as providing for the accessory use of land for parking purposes specified in Subsection 516, and such uses shall be such as do not alter the character of the premises on which they are located, nor impair the neighborhood.

302

PROHIBITED USES - GENERAL

302.1 The use of land or buildings within the Town of Stoneham for race tracks, tourists cabins, trailers or trailer camps, motels, quonset huts and carports is prohibited, provided, however, that a single trailer, with or without wheels, used as a place of habitation may be permitted as specified in Article 6, Section 640.

302.2 Further, any use not specifically permitted or accessory or exceptional in a district is deemed to be prohibited unless provided for by Article 8.

302.3 If Article 23 on the Annual Town Warrant of 1973 is voted and approved by the Attorney General, the word "motel" shall be deleted from the provisions of 302.1.

303

ACCESS TO BUILDINGS

No private way, giving access to a building or use not permitted in a residential district shall be laid out or constructed so as to pass through a residential district.

Section 310

Section 380

LIMITED BUSINESS DISTRICT

This section of the Zoning By-Law of the Town of Stoneham shall be valid only if Article 23 ia voted by the Annual Town Meeting of 1973 or sub-

sequently at a Special Town Meeting and subsequent thereto approved by the Attorney General in accordance with provisions of General Laws, Chapter 40, Section 32, said Section (380) being identical in meaning with the provisions of said Article 23.

381

PERMITTED USES

Within Limited Business Districts the following specified uses are permitted:

381.1 Residence "A" and Residence "B" uses where they were permitted prior to the time when this amendment went into effect.

383

ACCESSORY USES

Within Limited Business Districts the following specified uses accessory to Permitted Uses (381) are permitted.

383.1 All of the uses accessory to permitted uses in Residence "A" and Residence "B" Districts, where such uses were permitted prior to the time when this amendment went into effect.

383.2 An attached dining room or restaurant as a use accessory to an exceptional use for motels in accordance with provisions of Sub-section 385.1.

385

EXCEPTIONAL USES

Within Limited Business Districts the following specified uses are permitted as exceptional uses:

385.1 Motels in accordance with provisions for exception of Article 8, Section 806.

387

PROHIBITED USES

Within Limited Business Districts the following specified uses are prohibited:

387.1 Any exceptional use of land for motels as specified in Sub-section 385.1, wherein the land is not within two-thousand feet of a divided highway, said highway being part of the Interstate Highway System or being under the control of the Commonwealth, and wherein the land also has insufficient frontage on a road controlled by the Commonwealth, or by the County, and wherein the land is of insufficient area, as specified by the dimensional requirements of Article 4, Sections 481 and 483, shall be prohibited and not subject to exception.

ARTICLE 4

DIMENSIONAL REQUIREMENTS

Section 400

All dimensions specified herein shall be effective, but with exceptions as provided for.

400.1. . Exceptions to Setback Area. Where to an extent of fifty percent of the space between two streets, or in a space of four hundred feet, on one side of the street, front yards of uniformly greater depth than specified hereunder have been established or provided for by common agreement or by private building restrictions, or where through common usage they exist, the depth of the front yards so established, provided for or existing shall be the front yard depth under this By-Law for such street or portion of a street. Where in a similar space and to a similar extent front yards of varying depth but all of a greater depth than fifteen feet are so established, provided for or existing, the minimum depth so established, provided for or existing shall be the front yard depth under this By-Law for such street or portion of a street.

401

EXCEPTIONS UNDER BOARD OF APPEAL

The Board of Appeal may give permission, in accordance with Article 8, Subsection 805.11, for lesser distances in specific cases where unfavorable topography makes it difficult to conform to the provisions of Sections herein having to do with Residence "A", Residence "A1", Residence "B" and One-Family Districts, or where any parcel of land, the boundaries of which have remained unchanged since the passage of this By-Law dated March 31, 1925, is of such peculiar size or shape that is not reasonably possible for the owner to make beneficial use of such parcel in conformity with the provisions of this By-Law relating to area and setback lines within Residence "A", Residence "A1" and One-Family Districts.

402

GENERAL EXCEPTION TO HEIGHT RESTRICTIONS

As an exception, schools and municipal buildings may contain three stories and be forty-five (45) feet in height.

404

AVERAGE SETBACK

As an exception, if a dwelling is one of a series of three contiguous house lots, the setback required shall be the average of said existing lots.

405

MAIN STREET SETBACK

405.10 Except as provided for in Article 8, Section 805, on appeal, where the Board of Appeals may permit a lesser distance under conditions where

unfavorable topography makes compliance with this Sub-section impractical, no building may be placed within fifteen (15) feet of the street line in the following areas along Main Street:

405.11 On the westerly side between Marble Street and Maple Street.

405.12 On the westerly side between Montvale Avenue and North Street.

405.13 On the easterly side between Summer Street and Hancock Street.

405.14 On the easterly side between Pleasant Street and North Street.

405.20 On both sides of Main Street, from Collincote Street north to the northerly boundary of Stoneham, no part of any structure used for other than residential purposes, or accessory to such use, shall be built, altered, enlarged or moved within fifty feet of the street line.

406

VISION CLEARANCE AT CORNER LOTS

406.1 Vision Clearance, Residence "A" and "B" Districts.

Vision Clearance on Corner Lots in Residence "A" and "B" Districts, and One Family Districts.

On a corner lot no fences, wall or structure, planting or foliage more than 3-½ feet in height above the plane of the established grades of the streets shall be erected in any part of a front or side yard herein established, that is included within the street lines at points which are twenty feet distant from their point of intersection measured along said street lines which will materially obstruct the view of a driver of a vehicle approaching a street intersection.

406.2 Vision Clearance, Retail, General Business and Industrial district.

On a corner lot no fences, wall or structure, planting or foliage, more the 3-½ feet in height above the plane of the established grade of the streets shall be erected in any part of a front or side yard herein established, that is included within the street lines at points which are seven feet distant from their distant from their points of intersection, measured along said street lines, which will materially obstruct the view of a driver of a vehicle approaching a street intersection. This shall not apply to structures above the first story.

407

EXTENSIONS OF BUILDINGS

Under provisions for Setback in Residence "A" and Residence "B" Districts specified in Sub-sections 414.2, 444.1 and 444.2, cornices may be extended two (2) feet and chimneys and one story portions three and one-half (3-½) feet nearer a lot line, private way or other building.

Section 410

AUTOMOTIVE REGULATIONS

Section 510

OFF-STREET PARKING

All new or substantially altered uses or structures in any District shall be provided with off-street automobile parking facilities to at least the extent required in Sub-section 518 below.

511

APPLICABILITY

No application for a permit for such parking structure or use shall be approved unless there is included with the application for a permit a plot plan showing such parking facilities.

512

MANEUVERING AREAS

Such parking facilities shall be designed with appropriate maneuvering areas and with appropriate vehicular access to a street or alley.

513

SURFACING

Such parking facilities shall be suitably graded, surfaced and drained so as to dispose of all surface water without detriment to surrounding uses..

514

LOCATION ON SITE

Such parking facilities may be provided within or outside a structure, above or below ground.

515

COMBINING BY USE

The required parking for any two or more uses or structures may be provided by the allocations of the total of the various spaces required for each use or structure in a common parking facility cooperatively established and operated.

516

SEPARATE FACILITIES

Such parking facilities may be provided on the same lot or premises as the use and structure for which they are intended or in any lot of same use of which at least a substantial portion is within 600 feet of such use or structure, or on a lot which is within 600 feet of such use or structure and is in a less restrictive zone.

517

MINIMUM APPLICABILITY

The regulations of this Section 510 shall not apply to any use or structure whose required minimum parking under the above schedule would amount to 10 parking spaces or less.

ARTICLE 6

SUPPLEMENTARY REGULATIONS

Section 610

SIGNS, GENERAL

The Sign By-Law of the Town of Stoneham regulates the dimensions, placement and use of signs within the Town. The authority for such regulations is conferred upon the Town by General Laws, Chapter 93, Section 29, and Chapter 143, Section 3, as amended. For purposes of notification, but not as a portion in force of the Zoning By-Law, the following Sub-sections specify the relevant Sign By-Law, or as subsequent reprints of this By-Law becomes available:

611

ADVERTISING SIGNS

For the permitted use of premises for a profession as provided for in Sub-section 317.8, and for the use of premises for customary home occupations, as provided for in Sub-section 317.7, a sign advertising the use therein is permitted not to exceed nine (9) inches in width and twenty-four (24) inches in length.

612

REAL ESTATE SIGNS

In all Districts, where uses as specified for Residence Districts are provided for, real estate signs advertising the sale, rental or lease of the premises upon which such uses are located are permitted but not to exceed twenty-four (24) inches by thirty (30) inches in dimension.

Section 620

CONDITIONS LAID ON LOTS

621

EXISTING LOTS SMALLER THAN MINIMUM REQUIRED

621.1 In any District, where a lot has existed as a lot of record prior to the effective date of this By-Law and such lot fails to meet the minimum area or frontage width of the District in which located, and such lot has been owned separately from any adjoining lot or lots, a building permit for a permitted

use shall be issued in accordance with the provisions in Section 5A of Chapter 40A, such effective date or dates referring to the first time or times such minima were effective.

621.2 If contiguous lots are under one ownership, the owner shall be required to add to such lot any land adjoining, in his ownership, in order to permit a lot to be created that can meet requirements as far as possible.

Section 630

CONDITIONS LAID ON USE OF LAND

631

EARTH REMOVAL

631.1 The removal of sod, loam, sand, clay, gravel or stone from any residence district, as a business enterprise, shall be deemed non-conforming uses of premises. Such uses shall be permitted, as variances, only under special permission of the Board of Appeal in the manner provided for in Article 8, Sub-section 805.15, and under such conditions as the Board shall impose.

631.2 Such conditions as the Board of Appeals shall impose shall tend to protect the Town and the district so as not to adversely affect the scheme of growth laid down in the Zoning By-Law, nor tend to impair the beauty of the Town or district, nor result in injury because of the method of removal of such material and such conditions shall be made a part of the permit.

640

MOBILE HOMES OR TRAILERS

641

VARIANCE FOR TRAILER USE

A single trailer, with or without wheels, used as a place of habitation may be permitted, as a variance, provided it is connected to a town sewer and water and its electrical service is metered separately from any other source, in accordance with and subject to a written permit therefor issued by the Building Inspector, provided a variance has been granted by the Board of Appeal after a public hearing duly held according to the By-Laws of the Town of Stoneham.

642

GUIDELINES ON ISSUANCE

No such variance shall be granted by the Board of Appeal which in its judgment would adversely affect the health, safety, convenience, character and welfare of the neighborhood or of the Town.

643

DURATION OF PERMIT

Each permit issued pursuant to the provisions of this By-Law shall be for such period or periods and on such terms and conditions as the Board of Appeal shall determine and shall be revocable at the discretion of the Board of Appeal and - or the Building Inspector.

644

NON-WAIVER OF CONDITIONS

The Building Inspector shall not waive or alter restrictions or conditions imposed by the Board of Appeal but may make any additional regulations he deems necessary within the scope of the variance as granted by the Board of Appeal.

ARTICLE 7

NON-CONFORMING USES

Section 710

NON-CONFORMING USES, GENERAL

Any use existing in any building or on any premises at the time of the passage of this By-Law may be continued in the same building or the same part thereof or on the same premises, although not conforming to the use regulations of the district in which said building or premises is located.

711

CHANGES OF NON-CONFORMING USE

No non-conforming use shall be changed, moved or extended on any premises and no building devoted to a non-conforming use or uses in whole or in part shall be structurally or substantially altered or reconstructed or in any way enlarged or extended unless such non-conforming use or uses are changed to a use or uses authorized in the district in which the building is located as hereafter provided.

712

NON-CONFORMING MANUFACTURING USE

As an exception, any non-conforming manufacturing use existing at the time of passage of the original By-Law (March 31, 1925) in any building or on any premises may be continued on the same location, and such a building or premises may also be used for any purpose set forth in Section 360 under the head of General Business.

Section 720

NON-CONFORMING USE EXTENDED OR MOVED

A non-conforming use may be extended or moved in any building provided that the building is not structurally or substantially changed and provided also that in a Residence or Commercial District a non-conforming use is not extended or moved to any building designed, arranged or extended to a conforming use.

Section 730

NON-CONFORMING BUILDING DESTROYED OR DAMAGED

Where a non-conforming building is destroyed or damaged to such an extent that restoration to its condition before being damaged would cost more that sixty percent of the cost to reproduce new the entire building, it shall not be restored or reconstructed unless the building and all its uses shall be made to conform to the use regulations of the district in which the building is located, unless the Inspector of Buildings and Board of Appeal grant permission to restore or reconstruct the building, and to continue any non-conforming use therein in accordance with procedure provided in Article 8, Sub-section 805.16 of this By-Law.

Section 740

ABANDONMENT OF NON-CONFORMING USES

The abandonment of a non-conforming use of a building or premises for a period of six months or more shall cause said building or premises to conform to the use reguations of the district in which such building or premises is located, unless the Board of Appeal grants permission to continue any non-conforming use in accordance with the procedure provided in Article 8, Subsection 805.16 of this By-Law.

ARTICLE 8

ADMINISTRATION

801

ENFORCEMENT

801.1 **Building Inspector as Enforcing officer.** The Building Inspector appointed under provision of the Building By-Law shall enforce the provisions of this By-Law.

801.2 **Inspection for Violation** If the Inspector shall be informed or knows that any provision of this By-Law has been, or is being violated he shall inspect the property where violation exists.

801.3 **Notice of Violation.** If the Inspector shall find any such violation as specified in 801.2 above, he shall give notice in writing to the owner or his authorized agent and to the occupant of premises that any use of building or structure contrary to this By-Law shall immediately cease.

801.4 **Revokation of Occupancy Permit.** If after such notice as specified in 801.3 above, the building or structure is used contrary to provisions of this By-Law or if any owner or occupant fail to obey a lawful order of the Inspector in respect to any violation of this By-Law he may revoke the permit for occupation of the premises.

801.5 **Complaint and Injunction.** Upon such failure to obey as specified in 801.4 above, the Inspector shall make complaint to the court having jurisdiction thereof or apply to the Superior Court for an injunction or order

restraining the further use of premises and shall take any and all such action as may be necessary to enforce this By-Law.

801.6 **Authority in All Other Matters.** In all other matters the Building Inspector shall have all authority granted him under the Provisions of the statute law or Town By-Laws.

802

BUILDING PERMIT

The Building Inspector shall act as follows:

802.1 **No Permits in Violation of Zoning.** He shall grant no permit for the construction, erection, removal or alteration of any building or structure which is designed or intended to be used for a purpose in violation of this By-Law.

802.2 **Posting of Permit.** He shall, upon granting a permit, not later than twelve hours thereafter cause a copy to be posted on the property to which it relates in a conspicuous location thereon.

802.3 **Date of Issuance.** He shall issue no permit for the construction, erection, alteration or removal of any building until after three days from the time of filing of application.

803

OCCUPANCY PERMIT

803.1 **Occupancy and Compliance with Zoning.** No building hereafter erected or altered shall be occupied or used in whole or in part for any purpose whatsoever, and no change of use shall hereafter be made on any land or in any building or part thereof, until a certificate of occupancy and compliance shall have been issued by the Inspector of Buildings and in case of dwellings and buildings accessory to dwellings also by the Chairman of the Board of Health, stating that the building and - or use complies with the provisions of this By-Law, other By-Laws or State laws.

803.2 **Application for Certificate.** Applications for certificates of occupancy and compliance shall be filed coincident with the application for building permits and shall be issued or refused in writing for cause within five days after the Inspector of Buildings has been notified in writing that the erection or alteration of such buildings has been completed.

803.3 **Recording of Certificates.** A record of all certificates of occupancy and compliance shall be kept on file in the office of the Inspector of Buildings and copies shall be furnished upon request to any person having a proprietary or tenancy interest in the property.

803.4 **Accessory Buildings.** Buildings accessory to dwellings when completed at the same time shall not require a separate certificate of occupancy.

803.5 **Issuance of Temporary Certificates.** Pending the issuance of a regular certificate, a temporary certificate may be issued for a period not exceeding six months, during the completion of alterations or during partial occupancy of a building pending its completion.

803.6 Conditions on Issuance of Temporary Certificates. Such certificate shall not be issued except under such restrictions and provisions as will adequately insure the safety of occupants.

803.7 Issuance and Failure to Comply. No temporary certificates shall be issued prior to its completion, if the building fails to conform to the provisions of the building laws and State laws or of this By-Law to such a degree as to render it unsafe for the occupancy proposed.

804

BOARD OF APPEALS

804.1 Powers of Zoning Board of Appeals. There shall be a Board of Appeal consisting of five members, which shall have all the powers and authority and be subject to all the duties as provided in Chapter 40A, Section 15, of the General Laws, and any amendments thereto.

804.2 Acting as Subdivision Board of Appeals. The Board of Appeal hereby established shall also act as the Board of Appeal required under the provisions of Section 81 Z of Chapter 41 of the General Laws relating to Subdivision Control and any amendments thereto.

804.3 Appointment of Regular Members. The Selectmen shall appoint five members, one of such members to be nominated by the School Committee, one nominated by the Planning Board, one nominated by the Board of Health, one nominated by the Board of Assessors and one nominated by the Board of Public Works.

804.4 Appointment of Associate Members. The Selectmen shall also annually during the month of April nominate and appoint two associate members of the Board of Appeal who shall act as members thereof in the absence of any member or members of the Board, when requested by the Board of Appeal. Said associate members shall have the power of regular members in the performance of their duties, and shall be subject to the provisions of the Zoning By-Law relative to members of the Board of Appeal. The Selectmen may at any time appoint an associate member to fill an existing vacancy.

804.5 Terms of Office. The terms of the members shall be as follows:

Member nominated by Planning Board and Board of Health, two years. Member nominated by Board of Assessors and Public Works, one year. Member nominated by School Committee, three years, said terms to originally commence on May 1, 1925. Thereafter, as terms of any member expires, or his office becomes vacant from any cause, his successor shall be nominated and appointed in the same way in which such office was originally filled and for the term of three years.

No member of the Board of Appeal shall serve more than one term consecutively.

804.6 Residence Requirements. Members of said Board of Appeal shall be residents of Stoneham, shall hold office during such residence until their successors are duly qualified and may be removed after hearing, by the Selectmen.

804.7 Chairman. A chairman of said Board and in his absence an acting chairman shall be chosen by and from the members thereof.

804.8 Interest in Matters Before Board. No member shall act in any case in which he is interested financially or otherwise.

805

APPEALS AND HEARINGS

805.10 Provisions for Hearings. Hearings may be held on appeal from actions of the Building Inspector, or prior to the issuance of a permit requiring a public hearing by the Board of Appeal, in the following specified instances, but not limited thereto:

805.11 Cause of Grievance. When any person is aggrieved by an order, act or refusal of the Building Inspector to issue a permit.

805.12 Aggrieved Others. When any property owners are aggrieved by the granting of a permit who have a personal interest therein.

805.13 Exceptional Uses. When application is made for a permit which would allow an exceptional use in any District. Such permitted but exceptional uses in any District include, but are not limited to, those uses specified in Subsections 315.3, 315.4.

805.14 Temporary Permits. When application is made for a temporary permit, as provided for in Subsection 807.

805.15 Earth Removal. When application is made for the removal of earth in accordance with provisions of Subsection 631.

805.16 Restoration. When application is made to restore, reconstruct or continue after abandonment a non-conforming use where damage has been in excess of specified limits, as provided for in Section 730.

805.20 Wherein Notice Required. In all of the instances specified above by the provisions of Subsection 805.10, wherein a public hearing is required before acting on an appeal or authorizing the issuance of a permit by the Building Inspector, notice shall be given in compliance with the following specified procedure:

805.21 Notice of Grievance. Wherein appeal upon grievance is provided for in 805.11, within ten days from the date when notice of an aggrieving order, act, or refusal of the Building Inspector shall have been delivered, appeal may be taken therefrom to the Board of Appeal by delivery of written notice to the Inspector and the Board of Appeal.

805.22 Notice of Permit Refusal. Where a permit is required, as specified in 805.13, 805.14, 805.15, 805.16, there must be provided a public hearing prior to issuance. Therefore, the Building Inspector shall refuse to issue such specified permit upon required application, without such prior hearing. Such refusal shall be subject to the same notice provisions as 805.21 above.

805.23 Notice of Hearing to Owners and Others. The Board of Appeal shall hold a public hearing thereon upon notice specified in 805.21 and 805.22 and after sending a written notice delivered by mail, postpaid, to the petitioner and to the owners of all property in the immediate vicinity deemed by the Board to have interest therein, or to be affected thereby, as they appear on

the most recent tax list; and the notice of said hearing shall also be advertised in a newspaper published in the Town of Stoneham so as to conform to the provisions of General Laws, Chapter 40A, Section 17 and any amendments thereto.

806

EXCEPTIONS BY BOARD OF APPEAL

When in its judgment the public welfare will be substantially served and the appropriate use of neighborhood property will not be substantially injured, the Board of Appeal may in a specific case after public notice and hearing and subject to appropriate safeguards determine and vary district regulations in harmony with their general purpose and intent as follows:

806.1 Extension of Non-Conforming Use. Permit the extension of a non-conforming use or building upon the lot occupied by such use or building at the time of the passage of these By-Laws.

806.2 Extension into Other Districts. Permit the extension of a building or use into a more restricted district immediately adjacent thereto but not more than fifty (50) feet beyond the boundary line of the district in which such building or use is authorized.

806.3 Gasoline Stations. Permit the erection of a gasoline or oil selling station.

806.4 Housing Authority. To aid and cooperate in the planning, construction or operation of an elderly housing project by the Stoneham Housing Authority as provided for under the provisions of Chapter 121 B, Section 23 of the General Laws, the Board of Appeals may, upon application by the authority, grant an exception to any regulations or restrictions contained in the Zoning By-Laws for that housing project for which application has been submitted.

806.5 This Sub-section of the Zoning By-Law of the Town of Stoneham shall be valid only if Article 23 is voted by the Annual Town Meeting of 1973, or subsequent thereto approved by the Attorney General in accordance with provisions of General Laws, Chapter 40, Section 32, said Sub-section (806.5) being identical in meaning with provisions of said Article, as follows:

806.5 Motels. Permit the erection of a motel in a Limited Business District, subject to all applicable provisions of Section 380 and Section 480.

807

TEMPORARY PERMITS

In undeveloped sections of the town and in built-up sections where some good reason exists, the Board of Appeal may grant temporary and conditional permits for a period of not more than one year at a time, subject to a single renewal for buildings and uses which do not conform to use regulations of the district, provided that such permits are made subject to such conditions as shall safeguard the character of the district and are granted in accordance with procedure provided in Article 8, Section 805, Subsection 805.14.

808

ACTION BY BOARD OF APPEAL

808.1 **Actions Allowed.** After hearing as provided in Subsection 805, the Board shall affirm, reverse or modify the order, act or refusal appealed from, or act as required in regard to permits.

808.2 **Basis for Action.** The Board may vary or modify the application of the Zoning By-Laws in accordance with their true purpose and intent, or when a literal interpretation would result in manifest injustice, provided that no such decision shall conflict with the spirit of said By-Laws.

808.3 **Required Vote.** The concurring vote of all except one member of the board shall be necessary to reverse any order or decision of any administrative official under Chapter 40A or to decide in favor of any applicant on any matter upon which it is required to pass under any zoning ordinance or by-law, or to effect any variance in the application of any such ordinance or by-law.

808.4 **Inability of Member.** In case of the inability of any member to act, the Chairman of the Board may designate any Associate Member to act temporarily in his place.

808.5 **Specification of Reasons, and Notice.** Each decision shall specify the variations and exceptions allowed, if any, and the reasons therefor, and a certified copy shall be delivered to each party in interest within 10 days after the decision.

809

CONDITIONAL PERMIT

809.1 **Sites Lacking Frontage.** Every request for a building permit in a location which does not abut on a street which is laid out and accepted as a traveled way, or which has not been built to subgrade, so that said way or street is passable for fire apparatus and other teaming, or which abuts on a street or way in which there is no public sewer or in which there is no water available for connection with the building after completion shall be referred to the Board of Appeal.

809.2 **Report on Site.** Upon receipt of such application said Board shall, within a reasonable time thereafter, examine the said premises and after said examination shall issue a report, a copy of which shall be submitted to the person or persons applying for the permit, which said report shall state the possibility of water connection, sewer service or the construction of an accepted way abutting said premises.

809.3 **Issuance of Permit.** A copy of said report shall be kept on file in the office of the Inspector and after said report has been rendered, said Inspector may issue a permit, if the plans and specifications comply with all existing requirements.

Section 810

SITE PLAN APPROVAL

810.10 **Requirements for Site Plan.** .In all classes of zoning districts, no

buildings, or any building accessory thereto, intended to be used for residential purposes by three families or more shall be constructed or externally enlarged, or established in a building not theretofore used for such occupancy, and no commercial buildings shall be constructed or externally enlarged, and no commercial use shall be expanded in ground area or established in an existing building not theretofore used for commercial purposes except in conformity with a detailed topographical site plan bearing an endorsement of approval by the Board of Selectmen. Said Site Plan shall show, among other things, all existing and proposed buildings, structures, parking spaces, loading areas, driveway openings, driveways, service areas, and other open uses, all facilities for sewerage, refuse and other waste disposal and for surface water drainage, and all landscape features (such as walks, fences, walls, planting areas and greenbelts) on the lot.

810.20 **Definitions Applicable to Site Plans.** For the purposes of this Section 810, the following uses shall be considered as commercial purposes and all buildings designed, arranged or constructed for, or occupied by, one or more of such uses shall be considered as commercial buildings:

810.21 Any of the uses allowed by the Zoning By-Law as a matter of right or permissible on a special permit in a non-residential zone but not allowed or permitted in a residential zone except the following uses allowed in a residential zone:

Telephone Office.

810.22 Farm, stock farm, truck garden, nursery or greenhouse upon which items are produced for the purpose of sale, including salesrooms for the sale of such products raised in or upon any of them.

810.30 **Procedure for Approval:**

810.31 Any applicant desiring approval of a Site Plan under this section shall submit said plan with five (5) copies, with application for approval thereof to the Building Inspector who shall refer the plans and application to the Board of Selectmen.

810.32 The Building Inspector shall act as the liaison for the Board of Selectmen and present said plans to all of the various departments and boards of the town who are expected to pass on any of the aspects of the plan and shall also appear, where feasible, at the formal site plan hearing and any continuances thereof.

810.40 **General Conditions for Approval.** In considering a site plan under this section, the Board of Selectmen shall assure, to a degree consistent with a reasonable use of the site for the purposes permitted or permissible by the regulations of the district in which located:

810.41 Protection of adjoining premises against detrimental or offensive uses on the site.

810.42 Convenience and safety of vehicular and pedestrian movement within the site, and in relation to adjacent streets, property or improvements.

810.43 Adequacy of the methods of disposal for sewage, refuse and other

wastes resulting from the uses permitted or permissible on the site, and the methods of drainage for surface water.

810.44 Adequacy of space for the off-street loading and unloading of vehicles, goods, products, materials and equipment incidental to the normal operation of the establishment.

810.50 **Authority of Board.** The Board of Selectmen shall have power to modify or amend its approval of a Site Plan on application of the owner, lessee, or mortgagee of the premises, or upon its own motion if such power is reserved by the Board in its original approval. All of the provisions of this Section applicable to approval shall, where apt, be applicable to such modification or amendment.

810.60 **Jurisdiction and Rules.**

810.61 In exercising its jurisdiction under this Section 810, the Board shall conform to all requirements of procedure including provisions for notice and hearings and appeals under the Zoning Enabling Act, Chapter 40A, Section 4, where applicable, to accomplish the interest and purposes of zoning as specified in Chapter 40A, Section 2 and Section 3.

810.62 The Board shall adopt rules for Site Plan Approval not inconsistent with the provisions of this Zoning By-Law for conducting its business and otherwise carrying out the purposes of the Zoning Enabling Act.

Accepted March 21, 1955.

ARTICLE 10

DEFINITIONS

1000.1 For the purpose of this By-Law, certain words or phrases herein shall be interpreted as follows, except where the context clearly indicates the contrary; words used in the singular include the plural, words used in the present tense include the future tense, the word "person" includes a corporation as well as an individual, the word "lot"includes the word "plot" or "parcel", the word "shall" is always mandatory, and the word "used" or "occupied" as applied to any land or building shall be construed to include the words "intended, arranged or designed to be used or occupied".

1000.2 **Specific Words or Phrases.**For the purpose of this By-Law, certain terms or words herein shall be interpreted as follows:

Accessory Use or Structure:A use or structure subordinate to the principal use of a building on the same lot and serving a purpose customarily incidental to the use of the principal building.

Apartment House: Is a building arranged or intended or designed to be

occupied by three or more families living independently of each other, and doing their cooking upon the premises, or by three or more individuals or groups of individuals living independently but having a common heating system.

Automobile Repair Shop: Same as Motor Vehicle Repair Shop.

Board of Appeal: The Board of Appeal of the Town of Stoneham.

Body Shop: A building, or part thereof used for only the minor structural repairs and refinishing of motor vehicles for renumeration, in which all such repairs are conducted entirely within the building, and in which there is no sale of gasoline or other motor vehicle fuel or oil or other lubricating substance or of motor vehicle accessories except incidental to the structural repair of motor vehicles as mentioned above.

Building: Any structure having a roof for the shelter, housing or enclosure of persons, animals or property of any kind.

Building Placement: The term "no building shall be placed" shall include, in referring to a building, any garage attached thereto, except uncovered steps, and placement shall indicate that said building shall not be built, altered, enlarged or removed to within some specified distance of a lot line, street line or other building or specified structure.

Building, Principal: A building in which is conducted the main or principal use of the lot on which said building is situated.

Business Stable: A building or part of a building, in which one or more horses belonging to the owner or tenant of the premises are kept and used in connection with the business of the owner or tenant for other purposes than sale, rent or hire.

Certificate of Occupancy and Compliance: A statement signed by the Building Inspector setting forth either that a building or structure complies with the provisions of this By-Law, or that a building, structure or parcel of land may lawfully be employed for specified uses, or both.

Church or Other Place of Worship: A church, temple, synagogue, mosque, or other similar place of worship.

District: A district or a zone shall be any portion of the territory of the Town of Stoneham within which certain uniform regulations and requirements or various combinations thereof shall be applied under the provisions of this By-Law.

Dwelling: Any building not a lodging house, tenement house, boarding house or hotel, all or any part of which is occupied as the home or residence of an individual or family, or of two or more families or individuals, living independently of each other, and whether built singly or as a part of a two family or a multiple dwelling, and whether using independent or common entrances and halls, stairways, or cellar.

Family: A group of person living together whether related by birth or not, and may consist of one or more persons.

Frontage: The distance between lot sidelines measured along the street lines. In the case of lots having all or part of the frontage on, or adjacent to, a street curve, the length of the curve lying within the bounds of one street will

be a portion of the frontage on the same street. Where two streets intersect on a corner lot, the bisector of the angle formed by the extensions of the closest points of tangency to the corner will be taken as the dividing line for the portion of a curve which lies on one or the other street.

Garage Repair Shop: A part of a garage where minor structural repairs are made to motor vehicles for profit by means of lathes, vises, and other appliances, but not by means of heavy machinery.

Gasoline Selling Station: A building, part of a building, lot or part of a lot, used in connection with tanks, pumps, or other appliances for supplying motor vehicles with gasoline, compressed air, oil, water and similar supplies, but not for the purpose of storing or parking motor vehicles.

Height of a Building: The vertical distance above the top of foundation at the street frontage of the lot to the extreme high point of a building or structure.

Height Limit: A fixed vertical distance taken at the top of foundation. The height limit in feet shall not apply to chimneys, ventilators, skylights or tanks usually carried above roofs, nor to domes or spires of non-residential buildings.

Hotel: A building designed for occupancy as the temporary residence of individuals who are lodged with or without meals and in which no provision is made for cooking in any individual room or suite, but wherein personal services are supplied, and to which the accustomed means of access are not private motor vehicles and in which there is a common means of access to individual rooms or suites.

Lot: A parcel of land which is or may be occupied by a building and accessory buildings including open spaces required under the By-laws.

Lot, Corner: A lot abutting upon two (2) or more streets at their intersection or upon two parts of the same street.

Lot Line: The established division line between parcels of property, public or private.

Lot Lines: Lot lines of a corner lot which borders on adjacent lots shall be considered as side lot lines. The front lot line of a lot having a frontage on more than one street shall be the street line having the shorter dimension.

Motel: A building designed for occupancy as the temporary residence of individuals who are lodged with or without meals and in which no provision is made for cooking in any individual room or suite, and wherein personal services are at a minimum, and to which the accustomed or usual means of access are private motor vehicles to be parked or garaged on the premises.

Motor Vehicle Repair Shop: A building or part of a building in which repairs are made to motor vehicles, or a repair shop in a garage or other building in which heavy machinery is used. An automobile school or motor vehicle paint shop shall be regarded a motor vehicle repair shop.

Multiple Dwelling: A dwelling or building designed and used exclusively for residential purposes by more than two families, each suite having an independent entrance from the ground and halls, but no con-

nection with each other except in such portion as may be a two family dwelling and divided one another by party walls or floors or both.

Non-Conforming Building: A non-conforming building is a building the use or construction of which does not conform in whole or in part to the use or construction regulations of the district in which the building is located.

Non-Conforming Use: A non-conforming use is a use which does not conform to the use regulations of the district in which such use exists or might be introduced.

Parking Space: An area on not less than 200 square feet, net, exclusive of access or maneuvering area, or ramps, or columns, to be used exclusively as a temporary storage space for motor vehicles.

Planning Board: The Planning Board of the Town of Stoneham.

Private Garage: A garage solely for private use and having no business connected therewith. A garage shall be considered as attached to another building if connected thereto by any construction of which a roof forms a part.

Public or Semi-Public Building or Use: A building or use owned or operated by a local County, State or Federal Governmental Agency.

Public Garage: A garage conducted as a business.

Public Stable: The term "Public Stable" means any stable not included within the definition of a business stable.

Setback or Line of Setback: The distance from the street line to part of structure nearest the street measured at right angles to the street line, not including cornices, free standing walls and fences.

Single Family Dwelling: A dwelling built singly and apart from any other building and designed and used exclusively for residential purposes by one family or individual.

Special Permit: The words "Special Permit" where used in this By-Law shall mean special permit granted as an exception under Section 4 of Chapter 40A of the General Laws.

Special Permit Use: A use of a building or lot or an action upon premises which may be permitted under this By-Law only upon application to the Board of Appeals for an exception and subject to the approval of the Board of Appeals and the conditions stipulated.

Street: A street is a public way or a way opened and dedicated to the public use which has not become a public way, except alleys; and shall be synonymous with "Roads", "Avenues", "Highways", and "Parkways", and other terms commonly applied to public ways.

Street Line: The line dividing the street from private property.

Street Width: The measured distance between street lines.

Structure: Anything constructed or erected, the use of which demands a permanent location in the soil or attached to something having a permanent location in the soil.

Use: A manner of utilizing by design or intent land or buildings for a purpose, or purposes, including maintaining premises, occupying premises,

erecting, altering, restoration, enlargement, or moving a building or structure upon land to accomplish said purpose or purposes.

Yard: An open space, which lies between the principal building or group of buildings and the nearest lot line not allowing said principal use or building, and unoccupied and unobstructed from the ground upward except as herein permitted:

a. **Yard, Front:** An open space extending the full width of the lot between a principal building and the front lot line, not allowing said principal use or building, unoccupied and unobstructed from the ground upward except as may be specified elsewhere in this By-Law.

b. **Yard, Rear:** An open space extending the full width of the lot between a principal building and the rear lot line, not allowing said principal use or building, unoccupied and unobstructed from the ground upward except as may be specified elsewhere in this By-Law.

c. **Yard, Side:** An open space extending from the front yard to the rear yard between a principal building and the nearest side lot line, unoccupied and unobstructed from the ground upward except as may be specified elsewhere in this By-Law. In the absence of either of said front or rear yards, said open space will be taken as extending from the front to the rear lot lines.

To see if the Town will vote to amend the Sign By-Law with the following deletions and additons:

Delete sub-section a, e, f and g of Section I of Article III and insert the following:

a. No sign shall hereafter be erected, reerected, constructed, altered, reworded, relettered or maintained, except as provided by this code, and after a permit has been issued by the Building Inspector.

e. All signs erected under this By-Law shall be erected in the exact location described in the permit. The permit number shall be clearly visible on the sign and located at the lower right hand corner of the face of the sign.

f. No permit shall be required to change the advertising copy or message on a changeable letter sign; repainting, cleaning, repair or maintenance shall not be considered an erection or alteration which requires a permit unless a structural change is made, or there has been an alteration or change in the advertising copy or message.

g. No permit or bond is required for signs in residential districts, unless the sign is erected on or over public property.

Delete sub-section c and d of Section 4 of Article III and insert the following:

c. The Building Inspector shall require the proper maintenance of all signs and shall inspect every sign for which a permit has been issued within thirty (30) days after it is erected. All signs together with their supports, braces, guys and anchors shall be kept in repair in proper state of preservation. The display surfaces of all signs shall be kept neatly painted or posted at all times. The Building Inspector may order the removal of any sign that is not maintained in accordance with the provisions of this code.

d. Nonconforming Signs: Signs which were erected before the adoption of these requirements shall not be rebuilt, relocated, reworded or

relettered without conforming to the requirements of this code.

Delete sub-section g of Section 5 of Article III.

Delete sub-section 2b, 2c and 2d of Section 1 of Article IV and insert the following:

b. A wall sign on a one story building may not be more than four (4) feet overall in height. A sign on the exterior wall of the first floor of a building may extend across the full width of the building wall. The height of signs for establishments occupying other than the first floor of a building shall not exceed six (6) feet.

c. There shall be not more than one exterior sign for each establishment, except that if the establishment has a direct entrance into said establishment in a wall other than the building front, there may be secondary sign affixed to such wall, and if the establishment has a wall other than the building front, that faces upon a street or parking area, there may be a secondary sign affixed to such wall whether or not such wall contains an entrance to the establishment, provided however, that no establishment shall have more than two (2) secondary signs in any event. The area of the secondary sign or signs shall not exceed fifty (50) percent of the maximum permissable area of the sign on the building front. In addition to the foregoing sign or signs, there may be one directory of the occupants or tenants of the building affixed to the exterior wall of the building at each entrance to the building. Such directory shall not exceed an area determined on a basis of one (1) square foot for each occupant or tenant of the building.

d. Gasoline Stations and Garages: Gasoline selling stations and garages may if they elect to do so, divide the one exterior sign affixed to the front wall of the building, to which they are entitled as herein above provided, into separate signs affixed to and parallel to such wall and indicating the separate operation or departments of the establishment, provided however, that the total of the area of the separate signs shall not exceed the maximum area permitted under this By-Law for a single exterior sign on such wall. In addition, one sign, standing or otherwise, indicating the company whose gasoline motor vehicles or equipment are being sold, may be erected, of such type, in such location, and in such manner as the Board of Appeals may permit. The standard type of gasoline pump bearing thereon in usual size and form, the name or type of gasoline and the price thereon shall not be deemed to be in violation of this By-law.

Delete sub-section 3 of Section 2 of Article IV and insert the following:

3. General Business District shall be restricted to one single or double face sign no more than twenty-four (24) square feet on each surface for each establishment, in the event that more than one establishment is advertised

on one sign structure, the total area of one single face shall not exceed 48 square feet.

Free standing pole and ground signs shall be no more than fifteen (15) feet at the extreme highest point of the sign, above the ground level.
